ABSTRACT

Facts and figures relating to American Indians in Oklahoma are presented in this manual for use by Indian tribes and by others working in the area of Indian affairs. The historical background of Oklahoma Indians is discussed, and information is presented on various characteristics, such as population, education, health and welfare, and crime and delinquency. Labor force statistics, employment patterns, housing data, and acreage holdings are also included. Numerous tables are contained in this manual, but the figures in many instances are estimations, and other figures change because of natural increases and decreases in many socioeconomic areas. The appendices provide summaries of general information on specific Indian tribes and descriptions of Federal programs specifically designed for American Indians. (FF)

ACKNOWLEDGEMENTS

In a research effort such as this one a project director organizes his strategy along the lines of resource availability, data collection, data analysis, tabular organization, and manuscript preparation. And at the same time, the project director realizes that he is extremely dependent on the services and skills of a number of different individuals and organizations. Such is the case in this undertaking, more so since there was an allotted time of five months to compute the objectives and the report.

Many individuals from many backgrounds were responsible for bringing this manuscript to its final form. The editor is extremely greatful for the efforts of Tom Welbourne, Hickory Starr, Kathy Hurst, and Leo Ramon in gathering most of the original data and for their guidance and direction at crucial decision making moments. Without them, the endeavor would have been much more difficult than it was. They, as well as the editor, are greatful for the cooperation provided by the following persons and organizations: Overton James of the Indian Education Division of State Department of Education, Boyce Timmons of the American Indian Institute, certain personnel at the Anadarko and Muskogee Area Offices of the Bureau of Indian Affairs, the Indian Health Service of Oklahoma City, the Oklahoma Employment Security Commission, the Oklahoma State Department of Vocational and Technical Education, the Police Chiefs of Lawton, Oklahoma City and Tulsa, the State Office of Economic Opportunity, the United States Bureau of Census, the Oklahoma Crime Commission, Oklahoma State Welfare Department, Oklahoma State Health Department, Department of Corrections, Oklahoma Board of Regents for Higher Education, Oklahoma Board of Regents for Oklahoma Colleges, Economic Development Districts of Oklahoma, and the Department of Housing and Urban Development of Oklahoma City. We are also very greatful for the assistance given us by many of the tribal leaders across the state.

The editor is also greatful for the cooperation of the following research assistants: John Rule, Brian Olden, Deanna Jung, and Mary Lou Fair. They were extremely helpful in placing the raw data in a more organized perspective.

Finally, there are the two secretaries who logged many long hours in preparing and typing the final manuscript. A great deal of indebtedness is owed to Miss Maggie Clanton for her efforts in typing the majority of this manuscript - the editor is especially greatful for the last minute assistance of Kathlene Brown. Both were a tremendous help.

INTRODUCTION

The American Indian has almost always been the object of investigation by historians, anthropologists, archeologists and certain social reformers. And invariably their interest was one of communicating their findings on the history and future propectus of America's indigenous people. Lately, other disciplines have shown an increasing concern for the state of affairs of the Indian, particularly in the areas of health, education, welfare, housing, and economic growth. The tribes in general, particularly those in Oklahoma, have always been concerned with these elements but were never in a position to take any concerted action. Today they are, and many tribes have taken the initiative towards self-government, direction and growth. To successfully accomplish their objectives, they, like others interested in this area, have the need to know certain basic facts about the American Indian in Oklahoma today. It is for this basic reason that this document was prepared.

Even more importantly, though, it seems that the multiple of facts and figures on the Oklahoma Indian up to this point were scattered throughout a myriad of agencies, organizations, state departments, federal agencies, etc. And no one organization had all of the information in one central unit - not even the Bureau of Indian Affairs. Again this manual is a step towards this objective - to bring together all of the information possible on the American Indian in Oklahoma for use by the Indian himself and others working in the area of Indian affairs.

The facts and figures contained herein are by no means an exhaustive survey of the total amount of information. Furthermore, the figures in many instances are mere estimations, while other figures have already changed because of natural increases and decreases in many socio-economic areas. For this reason, the reader should consider the majority of findings as averages occurring in most instances from 1968 to 1971, and not as the "true" figure itself. Even the population information in the historical section is not without error - they, too, are estimates based on some criteria of reporting at that time. However, every effort was made to obtain the most accurate figures currently available at the time the data was being gathered, so in this sense, the data is as accurate as is humanly possible. But there is error, but error that is virtually unavoidable in an undertaking such as this one.

In addition it should be understood that in some instances desired information was not available, particularly certain portions of the 1970 census figures such as average income, population distributions by age categories, number of Indians reporting tribe, size of family, average years of education, etc. This information will not be available until the middle of 1972. Similar information from the 1960 census could have been included but the Indian population in Oklahoma increased by 36.17% , it was felt that the data might be unrealistic. Certain health and education did not lend themselves to the type of tabulations appropriate for this manual and subsequently it was decided to leave them out. But the information gathered and tabulated is sufficient to give any Indian organization as well as others an opportunity to gain an almost complete picture of the socio-economic characteristics of the state's indigenous population.

Each chapter is prefaced with a brief introduction to the area of investigation, but, with exception in a few cases, the data remains unanalyzed from an intuitive or speculative viewpoint. It remains for those of you who survey this manual to put it to the best use possible - to assist the Indian people of this state to best fulfill and realize their objectives from their perspective.

CHAPTER I. A Historical Overview of The American Indian and Oklahoma

"The Land of the Red Man" is Oklahoma. The word is Indian, the heritage is Indian. Like other areas of the United States, Oklahoma was inhabited by prehistoric cultures. When European explorers traveled through Oklahoma lands beginning in the 1500's, tribal man had already occupied the area for over a thousand years. This land was the home of the Indians. They claimed the area long before white man knew of its existance, and they prospered.

Before looking at the socio-economic conditions as they exist for the Oklahoma Indian today, some archeologically discovered history should be discussed. In this way the history of Oklahoma is also presented. Indian civilizations flourished in ancient Oklahoma. They migrated within the area and were increased by free movements of tribes coming into their lands. It was not until the advent of the white man that Indian tribes were forced to move into the region of what was to be the state of Oklahoma. It was not until the nineteenth century that boundaries stiffled Indian tribes, forced movements ripped them apart and alien ways of living were introduced into tribal cultures.

Several prehistoric groups of inhabitants lived in the territory of Oklahoma. Peripheral archeological studies have revealed some information concerning these people, but much has been left undone. From these loosely contrived studies, six major groups of ancient peoples have been found to have lived in Oklahoma.

The earliest known inhabitant in America agreed to by archeologists is the "Folsom Man." In the Oklahoma Panhandle traces of this civilization were found also in the same region were archeological finds of the Basket Makers. Although these primitive people knew little of making pottery or of bow and arrow weaponry, the Basket Makers did produce elaborate mats, baskets and cradles. They further concerned themselves with planting corn, squash, pumpkin and beans in small fields. Their occupancy is estimated to be the time of the beginning of the Christian era.

About this same time, the civilization of the Ozark Bluff Dwellers flourished in the area of what is now "the land of the red people". Living in the limestore caves of the rivers of nothern Oklahoma, the Ozark Bluff Dwellers were developed to the stage of their contemporaries, the Basket Makers. Not making pottery or using the bow and arrow, the Bluff Dwellers also made basketry. They were concerned with agriculture and used the weapons of a dart and throw stick.

The Ozark Top-layer Culture were more advanced than either the Bluff Dwellers or the Basket Makers. Using bow and arrow, this culture also made pottery. Although the time period of the Ozark Top-layer Culture is not definite, the fact that they used bone and stone implements has been established.

Also discovered in the Panhandle were evidences of the Slab-House cultures. Existing later from about 1000 to 1400 A. D., these people lived in stone-sided pit dwellings. Remains show roofed homes, pottery and stone tools. Their weapons consisted of the bow and arrow and the lance.

Spanning a longer period of time, the Lower Mound Builder Culture lived in eastern Oklahoma. Living from 500 to 1500 A. D., these people belonged to a general culture group who once occupied most of what became the southern states. Practicing an artistic life, the Mound Builders left flat-topped pyramid-like earthworks. Excavation of the Spiro Mound located in LeFlore County revealed ceramic art pieces, stone carvings and bone and shell ornaments. Mounds of this type are scattered throughout Eastern Oklahoma. Some are believed to be ritualistic in origin, others were constructed as shelters.

Many migrations of native peoples passed through Oklahoma's history. The identification and number of the tribes who were native to the area is hard to determine. Grouping basic words, scientistis classify 225 different tribal dialects and language into 58 major linguistic families of Indian cultures in Oklahoma.

The linguistic family predominant in Oklahoma was the Caddoan group. It contained many tribes who lived from northern Kay County south to Love County, Oklahoma. Their culture was surprisingly uniform. A sedentary people, the Caddoan tribes lived in densely populated villages. Representatives of this linguistic stock today includes the Pawnees, the Caddo and the Wichita tribes.

By the time European explorers reached the area, the Athapacan linguistic people were a part of Oklahoma. Pursuing herds of buffalo with the seasons, these people depended on the animal for the necessities of life. The Apache were an important part of this group who had villages in southwestern Oklahoma. Once associated with the far Northwest, the Shoshonea linguistic family is represented today by the Comanches. Although the Osages and the Quapaws were both native to the Oklahoma region, other members of the Siouan linguistic stock were moved from their ancestral homes to Oklahoma.

From this heritage of many centuries, the Indian civilizations developed varied tribal cultures. From pre-history to history, the Indian lived, moved, hunted, farmed and died. From a home land which spread throughout northern America, pressures moved these people to the red earth of Oklahoma. The result of a hundred and fifty years of white man's acculturation of the Indian is apparent in many ways. The most obvious of these effects are the geographical relocations. The emotional and mental changes cannot fully be understood. Yet, an explanation must be attempted. The white man was a forceful newcomer. The indegenous inhabitants are often forgotten in the assimiliation of peoples into a whole. The Indian legacy is a part of us all.

The following pages present brief histories of the major tribes who lived in Oklahoma at some time. Figure IA shows where the cultures were originally living, and where they were relocated in Indian territory. Our past was begun with tribes occupying Oklahoma, it was further influenced by Indian movements into the area.

THE ANADARKOS

Until 1763, the Anadarkos were identified among the Caddoan tribes in French government relations in Louisiana. Their range was in the region of the Angelina and Neches Rivers in east Texas.

Their ranks weakened as a result of European trade and political rivalries in the Southwest. The Anadarkos became closely allied with the Kadohadocho and most of them were living in the tribal villages not far south of the present southeastern limits of Oklahoma in 1800. Other bands of the tribe were living in the vicinity of Nacogdoches, Texas, in 1828.

After the Caddo treaty of 1835, under the terms when the Caddo surrendered all claims to lands in Louisiana, they agreed to move beyond the limits of the United States, the Anadarkos and their Caddoan allies left eastern Texas and settled west on the Brazos River.

A peace treaty was signed by the Anadarko and the United States in 1846. Efforts to preserve the tribe caused them to be moved to a tract known as the Lower Reserve in Young County, Texas, where they lived along with several other tribes.

Favorable conditions existed until December, 1858, when they ended abruptly. The following year the tribes were moved. The Anadarko travelled under military escort to the Washita River. Since 1867, the Anadarkos were listed under the name "Caddo" and are now living as a part of that tribe in Caddo County, Oklahoma.

THE ALABAMAS

The Muskogee migration legend tells of a prehistoric movement of the Alabama from the West portraying them as one of the most ancient and valorous of four tribes that settled east of the Mississippi River. Around 1700, the tribe was living on the Alabama River within the present state of Alabama.

The Alabama began moving to new location at the close of the French and Indian War in 1763. They settled among other tribes in Florida and Louisiana. Later they were forcibly moved west to Indian Territory with the Creek in 1836.

They finally settled in the vicinity of Weleetka in Okfuskee County, Oklahoma, where Alabama Creek bears the name of the tribe.

Under the terms of the agreement between the United States and the Creek in 1901, all the Alabama living in the Creek Nation were enrolled as citizens of the nation and each received an allotment of 160 acres from the Creek domain. A large number of Alabama live near Livingston, Texas, on the Alabama-Coushatti Reservation today. The Alabama of Oklahoma live in Okfuskee and Hughes Counties centered around the Bird Creek settlement.

THE APACHES

Between 1,000 and 1,500 A. D., nomadic bands of the Athapascan Indians came from the north to roam the area which is now Arizona and New Mexico. They were the ancestors of the tribe known today as the Apache.

When the white man began moving across Indian country in the 1840's to California, the Apaches were a constant threat to them, simply because of the white encroachment on Indian land. In 1875, the Apaches were rounded up and placed on reservations. Some remained "troublesome" until the surrender of Geronimo in 1886. Those captured were finally located near Fort Sill, Oklahoma. Today the Apaches live on quiet farms in the vicinity of Apache, Oklahoma, in the southern part of Caddo County seventeen miles north of Fort Sill.

THE APALACHICOLAS

The Apalachicolas are of the Muskhogean linguistic family. They speak the ancient Hitchiti language and are both traditionally and historically the "mother" tribe or "town" of the old Creek Confederacy. Their original locality was southwestern Georgia. In the later history of the Apalachicolas, the tribes settled upstream and on the west side of the Chattohoochee River, where they became identified with the lower Creek Division. The remnant Apalachicolas were listed under their tribal name when they came to the Indian Territory with the Creek from Alabama during the Indian removal. They settled in the region south of present Okmulgee. Their town was one of the forty-four tribal towns comprising the Creek Nation until Oklahoma became a state.

THE ARAPAHOS

Once sendentary farmers, the Arapahos are believed to have traveled from the Red River in Minnesota to the headwaters of the Missouri River at the beginning of the eighteenth century. Probably soon after 1789, the main body of this important branch of the Algonquian linguistic family crossed the Missouri River to the Plains. Here the Arapahos separated and became semi-nomadic buffalo hunters, typical of the Plains culture. The Northern group stopped in the area of the North Platte River and the Southern group continued southward toward the Arkansas River.

The Southern Arapahos were generally friendly with the whites. In 1867, the treaty of Medicine Lodge placed them on reservation lands in the central and western part of Indian Territory. Their present location is in rural communities near the towns of Canton, Greenfield and Geary in Blaine County, Oklahoma, and at Colony in Washita County, Oklahoma.

THE CADDOS

Prehistoric migration of the Caddos still remains a debate. Archaeolagical discoveries in eastern Oklahoma tend to prove their movement has been from the southwestern area to the Red River in Oklahoma. Some ethnologists thought Caddoan migration in pre-Columbian times was westward from the Mississippi Valley to the Oklahoma region.

In 1541, the Spanish found a wide territory of Caddoan people in the present state of Texas. From 1714-1803, the French influenced the land of the Caddos. They were located on the Red River in what is now the state of Louisiana. After the Louisiana Purchase in 1803, the Caddos transferred their friendships with the French to the United States.

In 1835, the Caddo sold their ancient homelands to the United States. They then moved to the Brazos River area in Texas. Conditions at the Brazos Reserve were not favorable. In 1858, the Texas officials and federal agents decided that the removal of the Brazos tribes to Indian Territory was necessary. The Caddo settled on the Washita River within present Caddo County, Oklahoma. The largest settlement of the Caddos today is in the vicinity of Binger, Oklahoma. The Caddo give their name to the Caddoan linguistic family to which they belong.

THE CAHOKIAS

The Cahokias are listed as a leading tribe of the Illinois Confederacy in the first part of the eighteenth century. They are of the Algonquian linguistic family and were closely associated with the Tamaroas. The two tribes were located in a Jesuit mission settlement about 1698, near the site of present Cahokia, Illinois, The name of the tribe is distinguished by that of the Cahokia Mound, the largest prehistoric artificial earthwork in the United States. It can still be seen in Madison County, Illinois about six miles east of St. Louis.

In 1818, the tribes of the old Illinois Confederacy ceded half of the state of Illinois to the United States. From that time the Cahokia were a part of the Kaskaskia and the Peoria whose descendants may be found in Ottawa County, Oklahoma.

THE CATAWBAS

The traditional history of the Catawbas indicated they migrated from the northwest to their historic home in western South Carolina. From the time of 1820 to 1840 the tribe was considered to be living in less than desirable conditions. At this time, the Catawbas signed a treaty providing the cessession of their most fertile lands of what is now the state of South Carolina and for the removal of them to North Carolina.

When North Carolina would not provide a location for the Catawbas, nearly all of them returned to the region of their old home. In December, 1851, nineteen Catawbas reached the Choctaw Nation in Oklahoma. They asked for admittance and the right to settle permanently. In 1856, an act of the Choctaw Council adopted the Catawbas.

The government never assigned a definite location for the Catawbas in the Indian Territory, but some of them settled in the Creek Nation. The descendants of some of the Catawba who settled in the Choctaw Nation are now absorbed into the Indian population of Haskell and Le Flore Counties. The descendants of some of those who settled in the Creek and the Cherokee nations have been reported living southeast of Checotah in McIntosh County. The main portion of the tribe live in the eastern part of York County, South Carolina.

THE CHEROKEES

The Cherokee are unique among the Five Civilized Tribes of Oklahoma. The Atali or Mountain Cherokee dialect is the language spoken by them. Also since 1822 and the development of Sequoyah's syllabary, it is the language written by the Cherokees.

Originally the Cherokees occupied vast areas in what are now the states of North and South Carolina, Virginia, Tennessee, Georgia and Alabama. They were artists, farmers, hunters, fishers, traders and sometimes defending warriors. European colonization around 1700 forced them northward. By 1776, the Cherokees had reluctantly given up large tracts a long the eastern and northern boundaries of the tribal lands. In 1785, large parts of Cherokee land in Kentucky and North Carolina became United States territory, largely due to broken treaty agreements by the white settlers.

Through the next century the Cherokees underwent rapid technilogical advancements in the ways of civilization. Their alaphabet, a book of national laws and improvements in farming were a few. Continued agitation for a removal treaty on the part of the government brought on a cleavage among the Cherokee. However, in 1835, the entire tribe was moved to Indian Territory. This was the tragic time in Cherokee history which even today is remembered as "The Trail of Tears"--an 800 mile harsh journey on foot.

Today the Cherokees are found in nearly every large town and city in eastern and central Oklahoma. The biggest population of the tribe are in the counties of Adair, Cherokee and Delaware, Oklahoma. At the time of the exodus, about 1,000 Cherokees resisting removal, and hid in the mountains. After a long struggle, they won recognition as a tribe since known as the Eastern Band of Cherokees, and were allocated lands which today make up the Cherokee Reservation of North Carolina.

THE KEETOOWAH SOCIETY OF THE CHEROKEE INDIANS

In 1859, a Baptist missionary name Evan Jones organized a group of fullblood Cherokee Indians into the Keetoowah Society. A secret order of the Pin Indians, the members of the Keetoowah Society wore crossed pins on their hunting shirts or coats as a badge of the order. Their aims and objectives were to preseive the religious and moral codes of an ancient Keetoowah Society which had been allowed to lapse many years before. Although the members were Christian, they were greatly impressed by the loss of ancient tribal and religious rites, and wish to keep these valves intact.

The Keetoowah Society was repeatedly accused of helping the influences directed toward the abolition of slavery. When many were forced to join the confederacy, they deserted at the first opportunity. A circular printed by the Keetoowah Society of the Pins Indians produced grave dissatisfaction among the Confederate Cherokee Regiment. In the years after the war, rumors spread that the old tradition of the death penalty for the signing away of Cherokee lands was being revived. The Pins threatened to enforce that tradition.

In 1900, the Keetoowah were quite active in their position to opposition to the proposed allotment plan. The following year the Society of fullbloods made its thoughts clear in their resistence to the Dawes Commission. Today members of the Keetoowah Society can be found living in Muskogee, Oklahoma and in rural communities of Adair, Cherokee, Sequoyah, Delaware, Mayes, Muskogee, Craig, Nowata, Rogers, Tulsa, Washington and Osage Counties in Oklahoma.

THE CHEYENNES

The Cheyennes were originally agriculturalists living in permanent villages in the Minnesota Woodlands. The tribe left its ancestral homelands and moved west to what is now North Dakota. Here they took on customs of the Plains Indians and became roving hunters. The Cheyennes moved farther west making their headquarters in the Black Hills of South Dakota. Their whole way of life gradually changed from that of corn farmers to hunters constantly arguing with neighboring tribes for territorial rights.

In 1825, a treaty with the United States government promised protection for the Cheyennes. A military fort in southern Colorado became the residence of a large number of the tribe now known as the Southern Cheyennes. The rest of the tribe continued to roam about the headwaters of the Platte and Yellowsone Rivers and was designated the Northern Cheyennes.

Cheyennes participated in prominent wars among the tribes and with the U. S. Army. In 1867, Southern Cheyennes were assigned a reservation in Indian Territory. Continued indignation produced fresh Cheyenne attacks. An attack in 1868 on Chief Black Kettle's camp in the Washita River region of Oklahoma by George A Custer ended with the death of Black Kettle and many of his followers. From that time, the Southern Cheyennes were bitter and hostile to whites and their warriors led Plains wars until 1875.

In 1883, the last of the Northern Cheyennes settled on a reservation established for them by the government on the Tongue River in Montana where their descendants live today. Southern Cheyennes are organized with the Southern Arapahos as "The Cheyenne-Arapaho Tribes of Oklahoma." These members of the Algonquian linguistic family are now located in Thomas, Clinton and Weatherford of Custer County, Oklahoma; Hammon, Roger Mills County, Oklahoma; Watonga and Canton, Blaine County, Oklahoma; and Seiling of Dewey County, Oklahoma.

THE CHICKASAWS

Legend and tradition tell of the ancient tribal migration of the Chickasaws from the far west. They settled on the east side of the Mississippi River. The oldest location known of the Chickasaws is in what is now Mississippi. Called "Chickasaw Old Fields" it was a prairie extending ten miles from north to south and lying east of Tupelo, in Lee County, Mississippi. They were discovered in this region by the Spanish in 1540.

With the cession of Chickasaw lands to the United States, the southeastern states insistently demanded that all the tribes should be moved from inside their boundaries. In 1837, they emigrated from the Mississippi River regions. The Chickasaw Nation was established. It included twelve counties and parts of counties in present day Oklahoma east of the 98th meridian lying between the Canadian and the Red Rivers in southern Oklahoma.

A member of the Muskhogean linguistic family, the Chickasaws are located today in Pontotoc, Johnston, and Love Counties of Oklahoma. Members of this group of the Five Civilized Tribes also reside in the large cities and towns of Oklahoma City, Tulsa, McAlester, Durant, Ardmore and Pauls Valley, Oklahoma.

THE CHIPPEWAS

The Chippewas are of the Algonquian linguistic family and comprise one of the largest tribes in North America. In their traditional and early historical life, they lived along the shores of Lake Huron and Lake Superior and westward to the Turtle Mountains of North Dakota. Large groups of the Chippewas are living in Canada and in the northern United States, including Minnesota, Wisconsin and Michigan. Bands of the Chippewas were allied and United with some of the Ottawas before the French and Indian War. Their descendants now live in Ottawa County, Oklahoma.

In 1859, two bands of Chippewas confederated with the Munsee or "Christian Indians" in Kansas. They settled in the Cherokee Nation by contract with the Cherokee in 1867. Still another group of Chippewas were identified with the Potawatomi in Kansas, whose descendants now live in Pottawatomie County, Oklahoma.

THE CHOCTAWS

According to Choctaw legends, the tribe originated from the sacred hill called "Nanih Waya" near what is now Noxapater, Mississippi. Migrations placed them as far west as Mobile, Alabama, where they were discovered by the Spanish in 1540. Their lands once included much of what are now the states of Mississippi and Alabama, and came to the United States by treaty with Spain in 1819. In 1830, the Choctaws became the first of the five great southern tribes to be forcibly moved to the Indian Territory. The removal, from 1831-1834, was full of hardships from beginning to end. These hardships were initiated by white settlers and government soldiers attempting "to keep the Indians in their place."

The Choctaw Nation included thirteen counties and parts of counties in southeastern Oklahoma between the Arkansas and Canadian Rivers, on the north and the south. Tribal government continued in a limited form under federal government supervision until federal relationships with the Choctaw Nation as a separated government within the boundaries of Oklahoma ended in 1950. The Choctaw along with four of the Five Civilized Tribes belongs to the Muskhogean linguistic family.

Today the largest amounts of Choctaws live in McCurtain, Pittsburgh, LeFlore, Pushmataha and Choctaw Counties of Oklahoma. Many make their homes in the cities and towns of Oklahoma City, Tulsa, Muskogee, McAlester, Poteau and Durant all in Oklahoma. The Mississippi Choctaws who are descendants of those who were not removed to Indian Territory live on or near their reservation near Philadelphia, Mississippi.

THE COMANCHES

The Comanches were one of the southern tribes of Soshonean stock and the only one to live entirely on the Plains. They are a comparatively recent branch of the Shoshoni of Wyoming and until recent times kept in continual communication with them. Nomadic hunters, the Comanches made little agricultural use of the land and lived in easily transportable tipers. Long known as the finest horsemen of the Plains, they bore a reputation for courage although few in number and they considered themselves superior to neighboring tribes.

In the late eighteenth century, the movements of the Comanches brought them from the North Platte River and Rocky Mountain regions south across the Plains to the Rio Grande. They were at constant war with the Spanish in Mexico. Generally friendly to white Americans, the Comanches were bitter enemies of the Texans who had dispossessed them of their best hunting grounds.

By treaty in 1867, the Comanches agreed to go to an assigned reservation between the Washita and Red Rivers in southwestern Oklahoma. Comanche settlements today are near the cities of Anadarko, Fort Cobb, Carnegie and Apache in Caddo County, Oklahoma; Mountain View, Gotebo and Hobart in Kiowa County, Oklahoma; Lawton, Cache and Indiahoma in Comanche County, Oklahoma; and near

Walters in Cotton County, Oklahoma.

THE CONESTOGAS

The Conestogas, once an important Iroquain tribe that lived along the Susquehanna River and near the Chesapeake Bay, were annihilated in the Indian and colonial wars of the seventeenth century. A remnant of the tribe joined their neighbors, the Erie, in Ohio, and by 1830 became known as the Seneca of Sandusky. Their descendants are among the Seneca in Ottawa County, Oklahoma.

THE CREEKS

The Creeks belong to the Muskhogean linguistic family, the name of this linguistic stock coming from this member of the Five Civilized tribes of Oklahoma. During early times, the Creeks occupied most of Alabama, and Georgia living mainly along the Coosa and Tallapossa Rivers which are the main tributaries of the Alabama River and along the Flint and Chattohoochee Rivers.

When discovered in 1540 by DeSoto, they had already successfully formed the Creek Confederacy to resist attack from powerful northern tribes. From the 1730's, to a century later, the main tribes of the Confederacy occupied fifty towns.

After several treaties with the United States, the Creeks were moved to Indian Territory between the years of 1836 and 1840. They established their seat of government at Okmulgee, Oklahoma which consisted of a principal chief, judicial department and legislature. The Creek Nation included seven of what are now Oklahoma counties and parts of counties. They are in the general region north of the South Canadian River, lying east from the eastern boundary of McIntosh County, extending north to a line drawn east from the city of Tulsa, Oklahoma.

Today the Creeks live in McIntosh County, Oklahoma in the vicinities of Eufaula and Checotah, Hughes County in the vicinities of Weleetka and Okemah; and in Okmulgee County, Oklahoma. Many of these people live in the cities and towns of this area including Tulsa, Sapulpa, Henryetta, Holdenville, Eufaula, Broken Arrow and Coweta all in Oklahoma.

THE CREEK BANDS

There are four main groups of Creeks in Oklahoma today--the Creek Nation, the Alabama-Quassarte (Coushatta), the Kialegee and the Thlupthlocco Creeks. Each has its own tribal council. All of them form today's Creek Confederacy with its seat of government still at Okmulgee in eastern Oklahoma. The Alabama-Quassarte, organized in 1938, still has most of its members located in northeastern Hughes County, Oklahoma. The Kialegee can also be found in this area. The Thlupthlocco bands of the Creeks has its largest amount of members in Okemah in Okfuskee County, Oklahoma.

THE DELAWARES

The Ohio Valley in the eighteenth and early nineteenth centuries was the original home of the Delawares. Southern and eastern migrations located them on the Atlantic Coast. In 1609, the Dutch found the Delawares occupying the Delaware River Valley. In 1751, the Delawares began settling in eastern Ohio and located themselves along the stream of this present day states.

To escape murderous wars in Ohio, a band of Delawares crossed the Mississippi in 1789 and settled in Spanish territory in what is now the state of Missouri. The next forty years produced thirteen treaties between the Delawares and the United States government. One of these treaties provided for the removal of the Delawares from Missouri to a reservation in a triangular tract between the Kansas and Missouri Rivers. Their lands were fought over in border disputes of Kansas and Missouri state lines. Surrounded by intolerable conditions, the Delaware requested to be moved. Indian Territory was suggested. The tribe penetrated Oklahoma as early as 1812. In 1866, they were "officially relocated" under great protest by the tribal elders.

Members of the Delaware tribe who wished to retain tribal affiliation became known as the Registered Delaware. They moved from Kansas and settled along the Caney River in northern Oklahoma. They are presently sited in Washington, Nowata, Craig and Delaware Counties of Oklahoma at or near Bartlesville, Dewey, Copan, Wann, Alluwe and in a number of rural communities in Oklahoma.

Another smaller part of the Delawares is located in the southern part of the state near Anadarko. Calling themselves the "Lost Delaware Tribe", this group associated itself with the Caddo and the Wichita who came to the Washita River from Texas. They are now sited in Caddo County, Oklahoma in or near the cities of Anadarko and Carnegie.

THE EEL RIVER INDIANS

An Algonquian tribe who sold their reservation in Boone County, Indiana, in 1828, the Eel River Indians merged with the Miami. Their descendants can be found among the Miami tribe in Ottawa County, Oklahoma.

THE ERIES

The last of the Eries, and Iroquian tribe that lived near Lake Erie in the seventeenth century, joined the remnant of their neighbors the Conestoga and became known by 1830 as the Seneca of Sandusky, Ohio. Their descendants are among the Senecas living today in Ottawa County, Oklahoma.

THE HAINIS

The tribe of Hainais lived along the Brazos River in Texas for three centuries. In mid-nineteenth century, the Hainais were allies of the Kadohadoacho and the Caddo proper.

As the leader of the eight tribes that composed the Hasinai Confederacy, the Hainai were important in early Spanish and French relations with the Indians of east Texas. Their village on the Angelina River, in present Nacogdoches County, had long been the center of the tribal religious ceremonials.

In 1859, Hainai representatives met with those of the United States to prepare to settle these tribes in Indian Territory. With the outbreak of the Civil War, the Hainai went north to Kansas where they remained during the fighting. After, they returned south to Indian Territory, and were located on the Wichita-Caddo Reservation. Today they are a part of the Wichita and are living in Caddo County, Oklahoma.

THE HITCHITIS

The Hitchitis are classified in the Muskhogean linguistic family, but they were traditionally an ancient tribal group living in what is now southern Georgia and northern Florida before the arrival of the Muskoke or Creek proper in that region. The Hitchitis were looked upon as the "mother" town or tribe in the Lower Creek people in the Creek Confederacy. Their language or dialect is different from that of the Muskoke proper.

In 1832, the Hitchitas occupied nine "towns" along with the Apalachicolas and the Okmulge who spoke the Hitchiti language. When they came west to the Indian Territory during the Creek removal from Alabama, they Hitchitis settled in the region southeast from present Okmulgee to the village of Hitchita in McIntosh County. Some of the most prominent leaders in the Creek Nation were from the Hitchiti speaking towns.

THE ILLINOIS

The Illinois were a confederacy of Algonquian tribes, comprising the Kaskaskia, Peoria, Michigamea and Moingwena. Also a part of the group were the larger tribes of Cahokia and Tamaroa. The historic period of this group began when a Jesuit missionary met the tribal band in 1670. Their home was in southern Illinois and along the west band of the Mississippi River as far south as the Des Moines River, Iowa. The remnants of the Illinois settled in Kansas in 1832. Subsequently they were transferred to the Indian Territory in 1867. These tribes were incorporated with the Confederated Peoria and are now located in Ottawa County, Oklahoma.

THE IOWAS

According to tribal tradition, the Iowas left their original country north of the Great Lakes and traveled southwestward. They located themselves at the mouth of the Rock River in what is now Illinois. Over a period of years, their stopping places in this migration included the Des Moines River region, present Iowa, and the red pipestone quarry in Minnesota. In 1701, a French explored found them at this last site.

In 1824, the Iowas ceded all their lands in Missouri to the United States. In 1836, they were assigned a reservation south of the Missouri River. They opposed the question of allotment suggested in 1876. Small bands of the tribe moved to Indian Territory. Their plea for a reservation produced an area lying between the Cimarron and Deep Fork Rivers. This area includes part of present day Payne, Logan, Oklahoma and Lincoln Counties in Oklahoma. A member of the Siouan linguistic family, the Iowas are located today in Oklahoma south of Perkins, in Payne County near the Payne-Lincoln County line of Oklahoma.

THE KASKASKIA

The leading tribe of the Illinois Confederacy of the Algonquian linguistic family, the Kaskaskia were located near the present site of Utica, LaSalle County, Illinois in 1673. In 1700, the Kaskaskia decided to leave the country and located at the mouth of the Kaskaskia River.

When a member of the Kaskaskia tribe murdered the great Ottawa chief, Pontiac, in 1769, tribes from the north vowed vengeance and began a war of extermination against the Illinois. In 1803, the lands claimed by the Kaskaskia tribe in "Illinois Territory" were signed to the United States. The government agreed to protect the tribes. The Kaskaskia confederated with the Peoria and were assigned a reserve in Kansas. In 1832, the history of the Kaskaskia became that of the Confederated Peoria.

THE KAWS

The Kaws are the same tribe referred to as the Kansa. Oklahoma history labels them "Kaw" produced from the Dhegiha dialect in the Siouan linguistic family to which they belong. As the Siouan Dhegiha tribes migrated, the Kaws ascended the south side of the Missouri River to the mouth of the Kansas River. The late seventeenth century found their villages extending from this area and farther west on the Big Blue River.

In 1846, the United States secured the cession of most of the lands of the Kaws in the present state of Kansas. The tribe moved and established their villages at Council Grove on the Neosho River in Kansas. In 1859, this also became United States land. A reservation was bought in Indian Territory for the Kaws. They left thier namesake Kansas in 1873, and arrived in northern Oklahoma, the location of their new lands after a three week journey, during which many of the tribe died due to an outbreak of smallpox and other infectious diseases. White settlers are held accountable for the spread of these diseases.

Kay County, Oklahoma is the present location of most of the Kaws. They extend from the northeast part of the former Kaw reservation area to east of the Arkansas River to the Osage County line in Oklahoma.

THE KICHAIS

At the turn of the eighteenth century, the Kichais were living on the upper Trinity River in Texas and on the upper waters of the Red River in what is now Louisiana. The tribe belongs to the Caddoan linguistic family and were allied with the early Caddoan Confederacy. Their lands extended as far south as present Leon County, Texas, where today there are two creeks and a town are called Keechi after them.

The Kichais were frequently mentioned in the history of Western Oklahoma in the first half of the nineteenth century. In the 1830's some of the tribal bands were living with the Wichita in several villages in western Oklahoma. In the next decade, they attended intertribal councils. In 1859, some of the Kichais living on the

Brazos River Reservation in Texas were brought north by government agents to the Washita River in Indian Territory. From that time the Kechai tribe was listed among those of the Wichita Agency as part of the Wichita Confederacy.

Most of the Kichai live today between Gracemontand Anadarko in Caddo County, which was a part of the Wichita-Caddo reservation where they were allotted lands in 1901.

THE KICKAPOOS

Wisconsin and Illinois are the present states where the Kickapoos lived during the seventeenth century. Establishing their homeland first between the Fox and the Wisconsin Rivers in southern Wisconsin, the Kickappo moved into southern Illinois and later eastward to the Wabash River.

An 1819 treaty provided for the cession of all Kickapoo lands in Illinois which included nearly half the state. The treaty also meant that the Kickapoo be assigned to a tribal reservation in Missouri. A large band objected to the cession and moved to Texas. In 1850-1851, this band of Kickapoo went to Mexico. In 1870, attempts to persuade the Kickapoo to leave Mexico by United States agents were unsuccessful. They were finally induced to return. A reservation was first assigned them in 1883, between the Deep Fork and the North Canadian Rivers, a rich and already coveted area by the white settlers.

An agreement made by United States commissioners with the Kickapoo in 1891 provided for the cession of the reservation to the United States and allotments of land were made to the tribal members. This reservation was organized as a part of Oklahoma Territory and the surplus lands opened to white settlement by run in 1895.

It was not until 1901 that the Mexican Kickapoo were getting established on their allotments with some semblance of order in their tribal affairs. In this perioed, the tribe had two chiefs, one of them a woman who ruled with good judgement and whose word was law. The largest settlement of this member of the Algonquian linguistic family today is near McLoud in Pottawatomie County, Oklahoma.

THE KIOWAS

The Kiowas are the only members of the Kiowan linguistic family. Their original homeland was probably near the upper Yellowstone and Missouri Rivers in what is now western Montana. According to tradition, the Kiowas left this region because of a dispute with another tribe over hunting spoils and moved to the Black Hills of present South Dakota.

Toward the end of the eighteenth century, the Kiowas were driven south by the Sioux, finally settling in the area of present western Oklahoma and the panhandle of north Texas and west into a part of New Mexico. They established control of the area from the Arkansas River to the headwaters of the Red River and became known as the masters of the southern Planins.

The Kiowas were among the most hostile and defiant Plains Indians in resisting movement of white settlers along the overland trails. Treaties with the United States beginning in 1837 had little effect and the tribe continued fighting. In 1868, the Kiowas were forced onto a reservation near Fort Sill, Oklahoma. Defiance continued. Military defeat and the disappearance of the buffalo ended the Kiowas resistance. Today the Kiowas live primarily in Caddo County, Oklahoma at Carnegie.

THE KIOWA-APACHE

The Kiowa-Apache are also called the Prairie Apache. The name was applied to them many years ago through an error, some authorities say, as they had been associated with the Apache of Arizona. The Kiowa-Apache are of the Athapacsan linguistic family as are the Apache, but the Kiowa-Apaches never had any political connection with the Apache tribes of the Southwest. Instead they came from the north as a part of the Kiowa.

More recent authorities believe that the Apache divided, probably somewhere in Montana--the main body going southward on the west side of the mountains and the smaller body going northward with the Kiowa on the east side of the mountains.

The Kiowa-Apache do have a distinct language. They were associated with the Kiowas porper since prehistory and in records from the seventeenth century. Their history for the most part is common with the Kiowas. They settled peaceably on their reservation in Oklahoma with the Kiowas. Today the Kiowa-Apache live in the vicinity of Fort Cobb and Apache in Caddo County.

THE KOASATIS

The Koasatis are of the Muskhogean linguistic family and are closely related to the Alabama with whom they are now associated in Oklahoma. Although they were not the Creek proper, the Koasati were living in the compact town on the Coosa and Tallapoosa Rivers that belonged to the Creek Confederacy in the eighteenth century.

Within two hundred years, two large villages of the Koasati had settled the same region of the Creek Confederacy and greatly strengthened it. The wave of voluntary tribal emigration westward included a large portion of the Koasati who settled on Red River in Louisiana late in the eighteenth century. A part of them moved to the areas of the Sabine, Neches and Trinity Rivers in Texas. Within recent years their descendants have joined the Alabama in Polk County, Texas.

Those of the Koasati who remained among the Creek came with the main body of this nation to the Indian Territory in 1836 and were counted as part of the Creek nation. In Oklahoma today the corrupt spelling "Quassarte" is employed by the Indian Office adapted from the form used in the Creek Nation. They live presently in Oklahoma southeast of Weleetka, in rural communities in southeastern Okfuskee County and northeastern Hughes County. A large group of the tribe live in Allen and Jefferson Parishes, Louisiana; and another part are on the Alabama-Coushatti (another spelling of Koasati) reservation in Polk County, Texas.

THE LIPAN

This member of the Athapascan linguistic family originated in the northwestern part of the United States.

By 1500, migrations brought them south. A century later, the Lipan seem to have separated from the Jicarillo Apache of the Arizona-New Mexico region and gradually migrated eastward to the plains of Texas and into Oklahoma.

During the next two hundred years, the Lipan fought the Comanche and aided the Spanish in Mexico. In 1859, when the Indians of the Brazos Reserve in Texas were brought to the Washita River in Oklahoma, some of the Lipan sought refuge in the Indian Territory. A few come into Oklahoma with the Tonkawas in 1885 and settled in northern Oklahoma. Today the Lipan are counted among the Kiowa-Apache now under the Kiowa-Apache-Comanche Agency of the Anadarko Area Office. There are some among the Tonkawa in the vicinity of the town of Tonkawa in Kay County, Oklahoma.

THE MIAMIS

By 1700, the Miamis were migrating from their original location to northern Indiana and western Ohio, where three rivers have been named for them. They had a prominent part in the Indian wars in the Ohio Valley and in their early relations with the United States were considered owners of the Wabash River region in Indiana and a large part of western Ohio.

In 1840, the Miami ceded the last of their tribal lands in Indiana to the United States and agreed to move within five years to a reservation assigned them in Kansas. Disease and unprincipled white men broke up the tribe. The organization of Kansas Territory in 1854 provided for allotments and citizenship or a move to the Indian Territory. Those who came to Oklahoma were confederated with the Peoria, Kaskaskia, Wea and Piankashaw to become known as the "United Peorias and Miamis". Today this member of the Algonquian linguistic family can be found in Ottawa County, Oklahoma, near Miami.

THE MICHIGAMEAS

The name Michigamea is that from which Lake Michigan is derived, the ancient homeland of this tribe.

Historical records sited them near the headwaters of the Sangamon River in Illinois. Formerly one of the tribes of the Illinois Confederacy, the Michigameas are of the Algonquian linguistic family.

Under pressure from enemy tribes of the north, the Michigameas migrated at an early date from Illinois to a large lake in what is now northeastern Arkansas. About 1700, they were driven from this region by their enemies and returned to Illinois. The Michigameas soon rejoined the Kaskaskia. Their histories are identified together.

Descendants of the Michigameas may be found among the mixed-blood tribes of the Confederated Peoria in Ottawa County, Oklahoma.

THE MODOCS

The Modocs were a Lutuamin tribe closely related to the Klamath Indians and their territory before the advent of the white man, extended southwesternly from Oregon into northwestern California as far as east Goose Lake. Frequent conflicts with white settlers in early California gave the tribe a warlike reputation.

In 1864, the Modocs entered into a treaty with the United States ceding their California lands to the government and agreeing to reside with the Klamaths on their reservation in Oregon. Discontented with their lot, and the fact that confirmation of the treaty was delayed from year to year, in 1870 a group of Modocs under the leadership of "Captain Jack" (Kintpuash) left the Klamath Reservation and returned determined to obtain a reservation on their former lands in California. Attempts to force them to return to the Klamath Reservation resulted in the Modoc War of 1872-73. After resisting for months, Captain Jack surrendered, was tried by a white martial court at Fort Klamath and unjustly executed by hanging. The remaining members of the rebels were exiled to the Oklahoma Territory, remaining there until an act of Congress restored them to the Klamath Reservation in Oregon in the early years of this century. Descendants of the tribe live in the Oregon region today.

Some of the Modocs opted to remain in Oklahoma, where their descendants reside today. They live in Ottawa County, Oklahoma having been allotted lands in the Eastern Shawnee reservation.

THE MOINGWENAS

The Moingwenas are of the Algonquian linguistic family. They were living on the west side of the Mississippi River near the Peoria, in the Des Moines River region, as reported by the French explorer Marquette in 1673. Their name apparently had reference to the well-known Indian trail or road leading from the head of the lower rapids to the village of Moingona at the mouth of the Des Moines River, in the vicinity of the present town of Montrose, Lee County, Iowa.

The Moingwenas have since lost their tribal identity and have become a part of the Confederated Peoria whose descendants now live in Ottawa County, Oklahoma.

THE MOHAWKS

The Mohawks were a leading tribe, one of the "Three Elder Brothers", in the organization of the Six Nations or Iroquois Confederation in what is now New York. They were located farthest east of the Iroquian linguistic family at about the year 1600, living along the Hudson River westward up the valley of the Mohawk River and north to the St. Lawrence River. The introduction of firearms by the Dutch when they settled in the Hudson River Valley increased the power and strength of the Mohawk, who became notorious among both their white neighbors and other tribes for their warlike character.

With their power broken and their numbers deicimated by the wars in the eighteenth century, the Mohawk sold the last of their tribal lands to the state of New York by treaty in 1797. A band of the tribe settled among the Seneca of Sandusky in Ohio, with whom they moved to the Indian Territory in 1832

Descendants of the Mohawk are located and counted today among the Seneca in Ottawa County, Oklahoma. The largest groups of Mohawks live in Ontario, Canada.

THE MUNSEES

The Munsees are one of the three principal divisions of the Delaware. During a period of over one hundred years when they were gradually migrating westward from their original home on the headwaters of the Delaware River in New York, Delaware and Pennsylvania, the Munsees became recognized as a separated tribe. They are of the Algonquian linguistic family.

During the War of 1812, a part of the Munsee went to Canada and became affiliated with the Chippewa. In 1832, a band of Munsees joined the Stockbridge in the purchase of a reservation in Wisconsin and later moved with them to a Delaware reservation in Kansas. When objections arose to their remaining in this location, the Munsees or "Christian Indians" were confederated with the Chippewa in Kansas. When they were forced to moved from Kansas, these Munsees intered into a compact with the Cherokee in 1867. This agreement provided that the Munsees become citizens of the Cherokee Nation and they located near the Delaware in northern Indian Territory.

Descendants of the Munsee are in the former Cherokee Nation, princably within the limits of Washington and Nowata Counties in Oklahoma.

THE NATCHEZ

The name Natchez refers to the location of the tribe near the high bluff on the Mississippi River known as Natchez Bluff. The Natchez are of the Muskhogean linguistic family and were the largest tribe located directly on the lower Mississippi River. The tribe was almost annihilated in the bloody war that followed their massacre of the French settlers near Fort Rosalie at Natchez Bluff in 1729. Members of the tribe was managed to escape found refuge among the Chickasaw, Cherokee and Creek.

There are a number of mixed-blood Natchez and Cherokee, and Natchez and Creek, in Oklahoma. Those within the limits of the former Cherokee Nation live some miles south of Fort Gibson, near Braggs in Muskogee County, Oklahoma. Some in the former Creek Nation live in the vicinity of Concharty Creek in Muskogee and Okmulgee Counties, Oklahoma.

THE NEZ PERCE

Nez Perce is the French name for the Sahaptini tribe who are members of the Shahaptian linguistic family. The tribe was brought as prisoners of war with their famous leader, Chief Joseph, from their reservation in Orgeon and Idaho, and settied on a reserve on the Chikaskia River in the Indian Territory in 1879. Because of their high death rate and unhappy condition in this southern climate and their constant plea to return to the Northwest, the Nez Perce were allowed to go to the Colville Reservation in Washington by an Act of Congress in 1885.

Although the Nez Perce are no longer counted among the Oklahoma Indian tribes, it is said that some descendants, by intermarriage with neighboring families during the tribal sojourn in the Indian Territory, are now in the state. The Nez Perce reservation, a tract now included in Kay County, Oklahoma, was assigned to the Tonkawas.

THE OSAGES

The Osage were the most important Siouan tribe of the western division. Also known as Dhegiha, these Siouan tribes are classified in a linguistic group with the Omahas, Poncas, Kaws and Quapaws, supposedly at one time the constituents of a single main group living along the Ohio River.

The first notice taken of the Osage appears to have been in the historical records of the French locating the tribe on the Osage River. By treaty in 1808, the Osages ceded to the United States all of their lands from Fort Clark, Arkansas to the Arkansas River and all lands west of the Missouri, the larger part of what is now the state of Missouri and the northern part of Arkansas. At this time three main bands of Osage were identified geographically. They were the Pahatsi or the Great Osage, the Uteshta or the Little Osage and the Santsukhdi or Arkansas bands.

Subsequent treaties further reduced Osage lands until their present reservation was established in the northeastern part of Oklahoma in 1870. Today the main part of the tribe live in Osage County in three special communities near Gray Horse, Hominy and Pawhuska in Oklahoma. The discovery of oil on Osage land after the turn of the twentieth century made the Osages among the richest tribes in the United States.

THE OTOE AND MISSOURIA

According to tradition, the people later to become known as the Otoe once lived in the Great Lakes region. In a prehistoric migration southwest in search of buffalo, the Otoe arrived at the mouth of the Missouri River. A personal quarrel between two of their leaders led to a separation into two bands; the one that went upstream on the Missouri River became known as Otoe and the Other that remained near their first settlement was called the Missouria.

The Otoe and Missouria country lying south from the Platte River in eastern Nebraska was ceded by treaty to the United States in 1854 and a reservation was later established for the tribal group along the Big Blue River on the present Kansas-Nebraska lines. Their diminished reserve was sold with their consent through an Act of Congress in 1881, with the promise of a reservation in Indian Territory. This was purchased for the tribe in the northeastern part of what are now the counties of Noble and Pawnee in Oklahoma.

The Missouria lost their separate tribal identity because of their relatively small number. Today members of this reunited group of the Siouan linguistic family live in rural communities outside of Red Rock and at the "Otoe Subagency" in the northeastern part of Noble County, Oklahoma.

THE OTTAWAS

Some of the early Ottawas were located near the mouth of the French River, Georgia Bay, in the early seventeenth century. A large portion of the tribe were living on Manitoulin Islands. Wars moved them west to the Breen Bay, Wisconsin, area. By 1700, the tribe had spread in every direction as far south as the St. Joseph River, southern Wisconsin and northern Illinois; still others settled on the shores of Lake Huron near the Chippewas and on the shores of Lake Erie near the Wyandotte from Detroit eastward to Pennsylvania.

In 1831, three bands of Ottawa ceded their lands in the state of Ohio to the United States. These Ottawa resisted removal to a reservation in Franklin County, Kansas. However, they were finally moved five years later. Under pressure in Kansas for the opening and sale of all Indian lands, the Ottawas concluded a treaty in 1862 providing for allotment. To provide the protection and welfare of those Ottawas who were not ready to become citizens of Kansas, a tribal tract was purchased in Indian Territory. A member of the Algonquian linguistic family, the Ottawas moved to their new home, a reserve bounded by the Neosho River on the west and lying south and east of present Miami in Ottawa County, Oklahoma where they are located today.

THE PAWNEES

Pawnee prehistoric origins are still largely a mystery. Archeological studies indicate that the tribe moved northward around 1400, from an original homeland beyond the Rio Grande, to the Red River near the Wichita Mountains and then to the Arkansas River region, the Skidi Pawnees continued northward into southwestern Nebraska, while the Southern or Black Pawnees remained.

Until 1770, the Southern Pawness stayed in the Arkansas River area. At this time, they migrated amid tribal friction to join the Skidis in what is now Nebraska near the Platte, Loup and Republican Rivers.

During the next hundred years, the Pawnees lived in permanent villages on the Platte River. More than half the year, however, the Pawnees left to hunt for buffalo in the southeast plains. The winters were spent hunting.

The opening of the frontier brought disaster to the Pawnees. Several treaties with the United States ceded all their lands. In 1876, the tribe was removed to Oklahoma. The move was difficult and caused many deaths. All the Pawnees wanted was to live and hunt as they had always done.

This Pawnee reservation was located in present day Pawnee County, Oklahoma. Today most of the Pawnees live in the area of the cities and towns of Pawnee, Skedee, Lola and Meramec in Pawnee County, and near Yale in Payne County, Oklahoma.

THE PEORIAS

By 1670, the Peorias were moving southward from the Wisconsin River. Three years later a tribal band living at the mouth of the Des Moines River moved over to the east side of the Mississippi River into the vicinity of present Peoria, Illinois. Other tribes began a war of extermination and a part of the Peorias settled on the Blackwater Fork near St. Genevieve, Missouri. The main part of the Peorias, however, remained on the Illinois River.

From their first treaty with the United States in 1818, the Peorias were united with the Kaskaski. In an 1832 treaty, the Peorias along with other tribes gave up their land claims in Illinois and Missouri to the United States. They moved to a reserve on the Osage River in present Miami County, Kansas.

The great influx of white settlers on the western frontier after the gold rush to California in 1840 soon saw the Peorias and Kaskaskia joining their neighbors the Wea and Piankashaw to form a confederated tribe for mutual benefit and welfare. By 1850, the separate tribes and practically lost their tribal identity through intermarriage. The union was recognize in 1854 as the Confederated Peoria.

The organization of the state of Kansas in 1861 found these tribes harrassed. The complicated provisions of a treaty in 1867 moved the Confederated Peoria to Indian Territory. Their reservation lay west and south of the Quapaw in present Ottawa County, Oklahoma. They live their today united in 1873 with the Miami of Kansas, another member of the Algonquian linguistic family, as "The United Peoria and Miami."

THE PIANKASHAWS

The Piankashaws were once a sub-tribe of the Miamis, of the Algonquian linguistic family. The ancient village of the Piankashaw was near the present Illinois-Indian boundary, on the Wabash River at the junction with Vermillion. Later they settled farther down the Wabash River at the site of present Vincennes, Indiana. About 1800, they began moving with the Wea into Missouri.

In 1805, the Piankashaw tribal lands east of the Mississippi River were ceded to the United States. In 1832, their lands in Missouri and Illinois were traded for a reservation in Miami County, Kansas. In 1854, the Piankashaw officially became part of the Confederated Peoria and settled with them in Indian Territory in 1867.

THE PONCAS

According to tribal tradition, the Dhegiha tribes divided when they reached the Mississippi River during an ancient migration. The first division or Quapaws went downstream to the Arkansas River. The other four tribes or the Omaha division reached the mouth of the Osage River in present Missouri and then they separated. The Osage remained on the Osage River, the Kaws ascended the Missouri River and the Omaha proper and the Poncas traveled together still farther up the Missouri River.

The late seventeenth century found the Ponca villages located in a number of places including the pipestone quarry in southwestern Minnesota and the Black Hills of South Dakota. The Poncas and the Omahas separated, the Poncas remaining at the mouth of Niobrara River, near which they were assigned a reservation when they ceded all their land claims to the United States by treaty in 1858.

In 1865, the Poncas ceded nearly one-third of their reservation to the United States. The rest was then ceded to the Sioux. In 1876, Congress provided for Ponca removal to Indian Territory. The Poncas had no knowledge of this action until an agent appeared to force them south.

The Ponca reservation in Oklahoma was selected to be on the Salt Fork River where they were located in 1878. A group of disheartened Poncas left their encampment to return to their native Nebraska lands. After their arrest, trial and release, the unfair treatment of the Poncas reached proportions of a national scandal. Government investigations secured better conditions for them.

The Ponca today live in Oklahoma in Kay County, near Ponca City and White Eagle, and in the northeastern part of Noble County. A band of the tribe live in northern Nebraska, where members were formerly allotted lands some miles west of Niobrara.

THE POTAWATOMI

Traditional history records the Potawatomi, Chippewa and Ottawa as one tribe living on the upper shores of Lake Huron. By 1700, the Potawatomie had moved southward into Illinois and took over the greater part of the country of the almost annihilated Illinois tribes. Potawatomi land claims extended into what is now Indiana.

In 1833, the Potawatomi ceded much of their acreage to the United States. As a result, most of the tribe were living west of the Mississippi River by 1840. Those that settled in Iowa became known as the Prairie Band and those in Kansas as the Potawatomi of the woods.

In an effort to unite the tribe, a reservation was selected for them in Kansas. Here the Potawatomi were subjected to grossly unfair treatment in the settlement of the state. In 1861, allotment was accepted by the Kansas Potawatomi who then became known as the Citizen Potawatomi. The Prairie Band refused allotments and withdrawing from tribal relations were assigned a reservation in Jackson County, Kansas, where their descendants are living today.

The majority of the Citizen Potawatomi sold their allotments to purchase a new reservation in the Indian Territory to reestablish tribal relations. The tract extended from the Canadian River to the North Canadian River between the Seminole Nation and the Indian meridian. Today these members of the Algonquian linguistic family remain in the center part of the state of Oklahoma near the cities of Shawnee, Tecumseh, Maud, and Wanette in Pottawatomie County and also near Lexington in Cleveland County.

THE QUAPAWS

The chronicles of DeSoto in his expedition in 1541 report the Quapaws to be located on the west bank of the Mississippi River about forty miles north of the mouth of the Arkansas River. Their traditional history and evidence of their occupation indicate that the Quapaws had lived in the lower Arkansas River region for a long period.

Soon after the purchase of Louisiana by the United States, the Quapwas were reported living in three villages on the south side of the Arkansas River claiming lands north and south which included present day southern Arkansas and Oklahoma and in northern Louisiana. They ceded this vast country to the United States in 1818. The organization of Arkansas Territory brought demands for the opening of this Quapaw reserve to white settlement. Another treaty answered the demand, the Quapaws agreeing to move to the country of the Caddo on Red River in Louisiana. Floods made their new location and uninhabitable and within a few years they were drifting back to their old location in Arkansas with one fourth of their numbers lost.

An 1833 treaty provided the Quapaw tribe with a reservation in northeastern Indian Territory, the Quapaws on their part giving up any claims they might have in the Caddo Country on Red River. Today this member of the Dhegiha group in the Siouan linguistic family lives in Oklahoma in Ottawa County of their old reservation with their tribal interests centering around Miami, Oklahoma.

THE SAC AND FOX

Originally separate and independent tribes of the Algonquian linguistic family, the Sac (Sauk) and Fox tribes have long been affiliated and allied. The prehistoric homelands of the Sac and Fox were in the Great Lakes region. The Sac inhabited the upper Michigan peninsula and the Fox were along the south shore of Lake Superior.

In 1667, the first recorded white contact with the two tribes was reported. By this time, pressure by other tribes and the French had pushed both groups into the vicinity of present Green Bay,' Wisconsin. French attacks contributed to a strengthened alliance amounting to a confederation of the two tribes. Forced to migrate south, groups of the tribe located themselves along the Mississippi River and the Missouri River.

In 1804, the Missouri tribe was persuaded to sign a treaty ceding their lands to the United States. The Mississippi Sac and Fox were violently opposed to the treaty. Attempts to remove them caused a split in the confederation. The Mississippi tribe was defeated in battles and in 1832, Sac and Fox power on the frontier came to an end. In the year 1833, the tribe was moved to Iowa.

The Sac and Fox lived in Iowa only thirteen years, then were moved to the Osage River reservation in Kansas for a 23-year stay. The inexorable westward movement of white settlers resulted in 1869 in another removal of the Sac and Fox to Indian Territory. A small number had continued to resist removal and had returned to Iowa in 1859 to join a group who had steadfastly refused to leave. Today a small group of Sac and Fox occupy a reservation in Kansas. The Sac and Fox lands in Tama County, Iowa harbor a group of Mesquakie tribal members.

In Oklahoma there are two groups of Sac and Fox centering around their community houses; the North Community house is ten miles north of Stroud, Oklahoma in Lincoln County and the South Community house is six miles northeast of Shawnee in Pottawatomie County, Oklahoma.

THE SEMINOLES

Classified among the Muskhogean peoples, the Seminoles came into existence about 1780. It was at that time that this group of remnant tribes that had joined in Florida during the border wars between the Spanish and the English was labeled "Seminole". The nucleus of the tribes first located themselves on the Oconee River in Georgia. The English colonists forced migration westward to the Chattahooche River. Rivalaries among the Spanish and English moved the Oconee tribe to a neutral gound in present day Florida. They settled near the present cities of Pensacola and Tallahassee.

The land of the Seminole became a haven not only for the tribe, but also for runaway slaves from the Unites States. This was the cause of several wars between the tribe and the government. In 1819, the territory of Florida was ceded to the United States by Spain. White settlers caused the Seminoles to be pushed back into the swamp land areas. The government expansion policy favored removal of the Seminoles to Oklahoma. The great majority of the Seminoles were bitterly opposed to the treaty of 1832 consenting removal. Attempts to force Seminole removal between 1835 and 1842 produced great Seminole resistence and many able leaders, the greatest of which was Osceola.

The United States succeeded in transporting most of the Seminoles to Oklahoma, in what amounted to a brutal debilitating march where they were eventually granted a reservation of their own in the western part of the Creek Nation. Many government promises made to the Seminoles were never fulfilled. Today Seminole County, Oklahoma, of their former tribal lands is the home of this member of the Five Civilized tribes. There are also a large number of Seminoles still in Florida. They are descendents of the 150 Seminoles who escaped all removal efforts. They are located on three federal reservations at Dania, Brighton and Big Cypress, Florida.

THE SENECAS

This tribe belongs to the Iroquian linguistic family, the largest division of the Five Nations of League of the Iroquis, who were first found occupying western New York. Some researchers believe that the Seneca in Oklahoma are not the Seneca Proper. Ancient moves of the people from Pennsylvania to Ohio and then to the Sandusky River region, where they became known as the Seneca of Sandusky.

In 1831, the Seneca of Sandusky agreed to move to Indian Territory although the move was delayed. They reached their destination on the Cowskin River northeastern Indian Territory in 1832. On their arrival the Senecas found their new country overlapped those of the Cherokee.

Another band of Seneca confederated with some Shawnee living in Logan County, Ohio. In 1832, their Ohio lands were sold for a reservation in Indian Territory near the lands reserved for the Seneca of Sandusky. The Mixed Band of Seneca and Shawnee found all of their lands in the Cherokee Nation and were not well received by the Cherokee. During the next year, the bands were united under the title the "United Nation of Senecas and Shawnees." The two groups moved to a new location in northeastern Oklahoma near the Grand River. In 1867, the Seneca separated from the Shawnee by treaty and also all the Seneca, the Sandusky and the Mixed Band joined as one tribe under the name Seneca. Today the Seneca are located in the southern part of Ottawa County, Oklahoma, east of the Neosho or Grand River.

THE SENECA-CAYUGA

At the beginning of the American Revolution, a large part of the Cayuga Lake in New York and moved to Canada. Soon after the war, the Cayugas sold their lands in New York. Some of the tribal bands moved to Ohio and joined the remnants of other Iroquian tribes that became known as the Seneca of Sandusky. These people moved to Indian Territory in 1832 soon after concluding a treaty with United State' commissioners in Washington.

The Seneca of Sandusky ceded their Ohio lands to the United States and agreed to move to Indian Territory in 1831. The Seneca remained in the state of Oklahoma, while the Cayuga were divided. Early Cayuga arrivals to the land of the Seneca were adopted by the tribe. The part who came later were forced to return to Canada. Some Cayuga live in New York today and a large number live near the Chippewa in Canada. "The Seneca-Cayuga Tribe of Oklahoma" reside in Ottawa County of northern Oklahoma, in the southern part of the county east of the Neosho or Grand River.

THE SHAWNEES

The Shawnees were formerly a leading tribe with prehistoric settlements in the Ohio River region. Linguistically they belong to the central Algonquian dialect group and were the southern advance guard of the Algonquian stock. Because of their interior position away from traveled routes of early days and their migratory habits, little is known of Shawnee origin. Wars caused the Shawnees to move from the Ohio River region to the areas of today's South Carolina, Georgia and the Gulf Coast. Here a split in the tribe moved to Pennsylvania. The rest went to Tennesee. More wars moved this part of the Shawnee to Kantucky.

During the late eighteenth century, the two main bodies reunited in Ohio. For a period of about forty years, until the treaty of Green ville in 1795, the Shawnees were almost constantly at war with the English and the Anglo-Americans. They became known as the most hostile tribe in the Ohio region.

After the death of Tecumseh, their most famous chief, the Shawnees lost their taste for war, and began to move to thier present locations. One group settled on reservation in Kansas, another went to Texas to join a band of Cherokees already there. A large group settled on the Canadian River in the Indian Territory of Oklahoma. They are located near the city of Shawnee in Pottawatomie County and east of Norman in Cleveland County, Oklahoma. Another band which settled in eastern Oklahoma is today known as the Eastern Shawnee tribe. Ottawa County, Craig, Rogers and other northern Oklahoma counties are the locations of the Eastern Shawnee today.

THE SKIDIS

The Skidis are the largest of the four confederated bands of Pawnee and are generally considered a separated tribe since they speak a distinct dialect. They are looked upon as the original tribal group from which the other three Pawnee bands came. A band of Skidi fought a battle with the Wichita in western Oklahoma in 1837 and later were at war with the Comanche in this region. As a tribe, however, the Skidi were usually associated with and intermarriage with the Wichita. The Skidi today are a part of the Pawnee in Pawnee County, Oklahoma

THE STOCKBRIDGES

The Stockbridges were originally known as the Housatonic but became known by this new name when the village of Stockbridges, Massachusetts, was founded near their tribal settlement. In their early history, they occupied the Housatonic Valley in what is now the southern part of Berkshire County, Massachusetts. The Housatonic or Stockbridge belonged to the Mahican Confederacy of the Algonquian linguistic family.

At the close of the American Revolution, the dispirited remnant of the Stockbridge joined the Oneida in New York. They joined with the Munsee to purchase a tract in Wisconsin where a large group still live. A part of the Confederated Stockbridge and Munsee moved to Kansas in 1839. By special agreement with the Cherokee, they settled in 1867 in Indian Territory as citizens of the Cherokee Nation. Members of a family of Stockbridges were also adopted by the Quapaw in 1893.

THE TAMAROAS

The Tamaroas were one of the tribes of the Illinois Confederacy of the Algonquian linguistic family. In 1680, they lived on both sides of the Mississippi River at the mouths of the Illinois and the Missouri Rivers. They were greatly weakened in the general extermination of the Indian tribes north of the Ohio River in the latter half of the eighteenth century. In 1818, the Tamaroas along with the Illinois tribes ceded half of present Illinois to the United States. In 1832, the Tamaros became a part of the Peoria whose descendants may be found in Ottawa County, Oklahoma.

THE TAWAKONIS

The Tawakonis belong to the southern group of the Caddoan linguistic family. They and their closely allied tribe, the Waco, speak a dialect of the Wichita language. In the early eighteenth century, the main Tawakoni were on the Arkansas River in present Muskogee County, Oklahoma. During the next fifty years the Tawakonis drifted south into Texas with other Caddoan tribes. They settled on the Brazos River and helped establish the Lower Reserve in that area settling it in 1855.

Four years later the Tawakonis moved to Indian Territory in the Washita River area. They went to Kansas during the war years, buy on their return to Oklahoma many died of cholera. In 1868, the Tawakonis were listed as a part of the Wichita and Affiliated tribes. They received allotted lands on the Wichita-Caddo reservation in 1901. They now live as a part of the Wichita in Caddo County, Oklahoma.

THE TONKAWAS

The Tonkawas belong to the Tonkawan linguistic family. This tribe of conintually fighting warriors was located on the Trinity River in Texas in 1542. In 1719, the French described the Tonkawas as one of the roving nations in the upper Red River region. Much of their fighting ended by the turn of the nineteenth century. Treaties of peace with other tribes and one with the United States settled the Tonkawas on the Lower Reserve on the Brazos River in Texas.

In 1859, the Texans exterminated most or all of the Indian tribes from within their state. The Tonkawas settled in the Washita River and began farming the valley. This area in Oklahoma was attached a few years later by other tribes. The surviving Tonkawas were located first at Rock Creek, Oklahoma and later gathered around Fort Griffin, Texas. The year 1884, brought the Indian Appropriation Act and another Tonkawa migration to a tract of land in northern Oklahoma. Less than one hundred Tonkawas managed the trip, and this was the total population of the tribe. Today the Tonkawas live near the town of Tonkawa in Kay County, Oklahoma.

THE TUSCARORAS

At the beginning of the eighteenth century, the Tuscaroras were a powerful tribe living toward the Atlantic Coast in North Carolina. Wars forced the tribe out of their country. They went north to New York where through the influence of their friends the Oneida, they were permanently adopted by the League of the Iroquois in 1712-1715. The largest group of the Tuscarora now live in New York and Canada.

An 1838 treaty provided for the removal west of a party of New York Indians. A band of Tuscaroras were included in the movement to the forks of the Neosho River in 1846. Their small reservation was in eastern Kansas. In 1873, they were forced to sell their lands because of the influx of white settlers. Some of their decendants are reported among the mixed-blood members of the Shawnee and Seneca in northeastern Oklahoma.

THE TUSKEGEES

The Tuskegees were an ancient tribe of the Muskhogean linguistic family living in northern Alabama during the fifteen hundreds. They then divided into two groups: The Tuskegees living on the Tennessee River became part of the Cherokee; those living at the junction of the Coosa and Tallapoosa rivers were counted among the Upper Creek in the Creek Confederacy.

The Tuskegee counted among the Creek came to Indian Territory and lived for a period in the southeastern part of the Creek Nation in the vicinity of present Eufaula. They later settled between the North Canadian River and Pole Cat Creek in the western part of Creek County, Oklahoma. Tuskegee in this region was one of the largest "towns" of the Creek Nation represented by one member in the House of Kings and two members in the House of Warriors of the Creek National Council.

THE WACOS

The Wacos are of the Caddoan linguistic family and are closely related to the Tawakoni with whom they were associated to the end of their tribal days. The two tribes spoke a dialect of the Wichita language.

The tribe was reported among the Caddoan tribes living on the Arkansas River in Oklahoma in the early eighteenth century. The main part of the Waco had migrated from the Arkansas River region with other Caddoan tribes and were living in Texas in the later part of that century. They settled for fifty years west of the Brazos River near the present site of Waco, Texas.

By 1840, parts of the tribe moved to the North Fork of the Red River in present Kiowa County, Oklahoma. By 1860, the United States had moved them all to the Washita River in Oklahoma. Today the Waco are counted as a part of the Wichita living in Caddo County, Oklahoma.

THE WEAS

Early villages of the Wea tribe were located on the Wabash and Hudson Rivers in New York. They are a sub-tribe of the Miami and are of the Algonquian linguistic family.

In 1757, the Wea and their allied tribe the Piankashaw endeavored to establish friendly relations with the Anglo-American colonists. The French influence brought the tribes into conflict with the English and later the frontiersmen. The Wea villages on the Wabash were destroyed by United States troops in 1791.

The Wea sold the last of their tribal lands in Indiana in 1818. They settled with the Piankashaw in Kansas in 1832 in what is now Miami County of that state. In 1854, they confederated with the Kaskaskia and the Peoria. They moved with the Confederated Peoria to Indian Territory in 1867. The Weas live today in northeastern Oklahoma in Ottawa County.

THE WICHITAS

At the beginning of the eighteenth century, the Wichitas were a southern Confederacy of Caddoan tribes living along the Arkansas River in Oklahoma and south along the Red River beyond the Brazos River in Texas. Wichita tradition indicated the migration of the tribe southward from the north and east, a prehistoric movement that seems to have been from an early tribal location in south and central Missouri. Pressure of the Osage and the Kaws of the southern Siouan division caused the migration.

Members of the Caddoan linguistic family, the Wichitas fought many wars with their hated enemies, the Apache who lived westward from central Texas and Oklahoma. The Comanche from the northwestern part of the Plains, and the Osage from the Osage River region in western Missouri. A 1746 French treaty brought peace between the Comanche and the Wichitas. The two tribes combined in hostilities against the Apache and the Osage.

In 1859, the Wichitas had mostly moved from their locations near Red River and were living in the Wichita Mountain region, with their principal villages a short distance north of the Present site of Fort Sill, Oklahoma. Later, they established their new village on Rush Creek southeast of present Rush Springs in Grady County, Oklahoma.

The reservation tracts nominally assigned to the Wichitas in Indian Territory before the Civil War were included in the large reservation granted to the Cheyenne and Arapaho in 1869. Discussion between government officials and Wichita leaders finally resulted in an assignment under which the United States granted the tribe a reservation between the Canadian and Washita River. Presently the Wichitas can be found in rural communities in the vicinity of Gracemont, north of the Washita River in Caddo County, Oklahoma.

THE WYANDOTTES

During the mid-sixteenth century, the Wyandottes occupied the area of the present site of Montreal and Quebec, Canada. A Century later, a complete defeat by the Iroquis moved the Wyandottes west from their country east of Lake

Huron, some going to Michilimakinac at the head of Lake Michigan and others to Green Bay Wisoncsn. About 1700, the Wyandotte were established in Ontario, Canada and the states of Ohio and Michigan.

During the mid part of the eighteenth century, the Wyandottes gained influence among the other tribes living between the Great Lakes and the Ohio River. This is significant because the Wyandottes are of the Iorguian linguistic family and the other tribes of the area belonged to the Algonquian linguistic group.

In 1843, the tribe left the Ohio region and settled at the forks of the Kansas and Missouri Rivers. Pressure in Kansas caused Wyandotte allotment of their land. White immigrants pushed a group to the Indian Territory. Agreements with the Seneca provided the Wyandottes with a reserve on the north side of the Seneca lands. The Wyandottes of Ottawa County were organized in 1937 as the "Wyandotte Tribe of Oklahoma" under the provisions of the Oklahoma Indian Welfare Act of 1936. Today the Wyandottes live east of the Grand River in Ottawa County, Oklahoma.

THE YUCHIS

The earliest known location of the Yuchis was in the southernmost region of the Appalachian Highland in western South Carolina, northern Georgia and eastern Tennessee. The Yuchi left the old location under pressure in colonial and Indian wars, and joined the Creek Confederacy for their mutual protection.

The tribe moved in parts from Tennessee, to Florida and parts of Virginia. A band identified with the Shawnee and a group located among the Seminole. The Yuchi (Euchee or Uchee) as a tribe came west to the Indian Territory in two main groups: The first group which had identified with the Lower Creek, arrived in the vicinity of Fort Gibson in 1829; the second, larger group came with the main removal of the Creek people from Alabama in 1836. When the Creek Nation was organized under a written constitution in 1867, the four Yuchi settlements were together designated Yuchi Town.

Classified as the Ucheau linguistic family, the Yuchi have a distinct language. Today they generally live south and east of Sapulpa and Mounds in Creek County and south into Okmulgee County, Oklahoma. There is a community east of Mounds on Duck Creek in the vicinity of Bixby in Tulsa County, Oklahoma. This whole area was in the Okmulgee District, or the northwestern part of the Creek Nation before statehood.

CHAPTER II. Population Characteristics of the Oklahoma American Indian

The first chapter dealt with the historical relocation of Oklahomas Indian tribes and their present location in 1971. This chapter addresses itself to the population distribution of Indian people in Oklahoma as of 1970.

At the outset, a question uppermost in the minds of individuals today concerns the identification or classification of an Indian. In a word or two, what is an American Indian? To begin with, the very fact that the name "Indian" was given to the native American by an Italian explorer who knew nothing about them and in fact mistook them for inhabitants of a land half-way around the world indicates something about the state of confusion. Moreover, the native American today as well as in 1492, identifies more with his tribal name than he does with the term "Indian." A recent effort on the part of Indian activist groups has been in the direction of using the term "Native American" as opposed to "American Indian" or "Indian American."

To further complicate matters, the federal government employs a legalistic definition of an American Indian based on the federal government's responsibility albeit self-appointed as the trustee over Indian lands and a provider for Indian services. Common requirements of the federal government are (1) the proportion of Indian blood should be at least one-fourth, and (2) that one officially be enrolled on a tribal or agency roll. Many tribes have overlooked this criteria in favor of a more stringent or relaxed criteria according to the agreement of the tribal council.

The Bureau of Census uses a more liberal definition particularly for those in off reservation areas. As stated in the 1970 Census of population[1],

> "The concept of race as used by the Census Bureau does not denote clear-are scientific reflects self-identification by respondents. Since the 1970 census obtained the information on race principally through self-enumeration, the data represent essentially self-classification by people according to the race with which they identify themselves."

This definition is helpful in counting, but is still hasn't said who or what an Indian is.

Another confounding problem seems to lie in the physical identification of an Indian, which is often used as an on the spot criteria when one doesn't ask. Josephy[2] gives a vivid account of this problem:

> "To the average person all Indians may seem physically alike... Although the term 'redskin' is as much an exaggeration as is 'paleface'... the skin coloration of Indians ranges from a coppery brown to a yellowish brown. Most Indians also have prominent cheekbones, which make their faces appear broad and large, although their chins often seem somewhat receding. They are generally dark-eyed, and their hair is black and straight, growing thickly on their heads but usually only sparsely on their faces and bodies."

Because of intermarriage between Indians and individuals from other ethnographic stocks, several variations of Josephy's characterization have occurred. It is not uncommon for one to find an Indian with blond or red hair, blue or green eyes, or fair skin in many sections of Oklahoma, as well as on many reservation or nonreservation areas throughout the United States. And in many instances these individuals may well be one-fourth on more in blood quantum and be on the tribal rolls. Too many non-Indians view the Indian from the stereotyped "Indian nickel" perspective and respond to this accordingly.

Several Indian social action groups have pushed for a clarification of the definition and many have settled on the following definition or a variation according to their own needs. "(A)n Indian (is) a person (1) who has certain attitudes towards nature and the land; who has a distinctive way of relating to and working with other people; and who places much less value than the members

of the dominant society do an aggressiveness, competitiveness, accumulativeness, formalized organization and planning, and time and (2) who has developed certain attitudes and behavior patterns as a result of his peculiar experience in American society."[3]

Still others prefer to settle the semantics and identity problem by indicating that a person is "Indian" only because he identifies with Indian people, and prefers to do so over and against identifying with another cultural group.

The problem obviously has not been resolved. For some it is because they are full-blooded, on tribal rolls, and prefer the Inidan life-style to any other. For others of mixed marriages not on tribal rolls the question still remains one of concern, only to be resolved by the tribes and the individuals involved.

An examination of the data in this section clearly points out that Oklahoma has the largest American Indian population of any other state in the United States. In fact, the Oklahoma Indian population is larger than the combined Indian populations of New England, New York, Pennsylvania and all of the remaining Eastern seaboard states. However, Alaska, Arizona, Montana, New Mexico, and South Dakota have a larger percentage of Inidan populations compared with their respective total populations. Oklahoma is sixth in this case. Despite this, though, Oklahoma is one of the few states that has no reservations as such.

Figure II-I indicates that the total Indian population is rising very rapidly - in fact, at a faster rate than the total United States non-Indian population. But the population pyramids in Figures II-2 and II-3 portray a different picture. If one examines the shape of the two pyramids, he will notice that the one depicting the total Indian population is large at the base and narrows at the top and almost resembles a "true" pyramid. The figure of the total United States does not. Of specific interest is the fact that the population age distribution of the American Indian is equivalent to many underdeveloped countries like India, Bolivia, Southeast Asia, etc. Their population pyramids would resemble that of the American Indians very closely. Yet the population age distribution of the United States resembles that of a highly developed country, which the United States is. Put in other terms, this implies that the American Indian, whose population distribution is indicative of an underdeveloped country, resides within a country that purportedly sets the standards for a fully developed country. Certainly this is a paradox that merits further investigation.

[3] Unpublished manuscript entitled, "The American Indian in American Society - 1970, a situation analysis by The National Committee on Indian Work of The Episcopal Church." (p. 2)

According to Figure II-2 the Indian population is very young. The median age of rural Indians in 1960 was 17.7 years as compared with 27.3 for the total United States rural population. More than 60 percent of the rural Indian population was under the age of 25, as compared with 48 percent for the total.

Indian families tend to run large. According to a 1969 federal government survey, two out of three rural Indian families have four persons or more, compared with one out of two in the total rural population. More than one-fourth of the Indian families have seven or more members.[4] Birth and death rates are discussed in more detail in Chapter IV.

Chapter III. Educational Characteristics of the Oklahoma American Indian

According to the 1960 census on educational attainment of American Indians, 14 percent of the rural Indians had received no schooling at all, compared with only 2 percent of the total rural population. Only one-third had gone to high school and 3 percent to college - comparable figures were 45 and 10 percent respectively for the total rural population. The median years of schooling completed was below the national average of 10.6 years in 1960. The median years for Indians ranged from 3.9 in Lousiana to 9.7 in California.

Indian children attend a variety of different types of schools. According to a 1970 report of the Bureau of Indian Affairs there were 185,587 Indian students between the ages of 5 to 18 inclusive enrolled in public, Federal, private and mission schools, which is about 20 percent of the total Indian population.[1] And according to a 1968 minority education report some 19,000 Indian students were attending colleges and universities in the United States (see Table III-15). Again in 1970 more than half or 61.7 percent of all Indian students attended public schools and of those enrolled, 68.4 percent attended public schools, 25.8 percent attended Federal schools, and 5.8 percent attended mission and other schools.[1]

There is another side to the ledger. According to a 1969 study of the school dropout rate among Indians in the Southwest there was a dropout rate of 38.7 percent, with the highest dropout rate occuring at the eighth grade level, 11.7 percent.[2] In Oklahoma, the dropout rate is 10 to 15 percent higher than for white students (see Table III-7 and III-8). The 1968 again points out that among tribes in Oklahoma the Kiowa students had a dropout rate of 45.6 Percent, the Cherokee, 45 percent, Choctaw (including Mississippi land), 40.5 percent, and for other Oklahoma tribes, 46.9 percent.[2] The same report also indicated that graduates ran about 54.3 percent, for all Oklahoma tribes (Cherokee, 52.1 percent; Choctaw, 59.4 percent; Kiowa, 54.3 percent, and other Oklahoma tribes, 53.7 percent). On put another way, 44.7 percent of the Indian students in Oklahoma dropped out in 1968 (see Table III-16).

[2] Owens, C.S. and Bass, W.P. The American Indian high school dropout in the Southwest. Southwestern Cooperative Educational Laboratory, Inc., Albuquerque, N.M., 1968.

The Bureau of Indian Affairs currently operates six boarding schools in Oklahoma. The Anadarko Area Office services schools at Concho, Chilocoo, Lawton, and Anadarko while the Muskogee Area Office services schools at Wyandotte and Tahlequah. The total enrollment as of 1970 was 2406 with an average daily attendance of 1735.5 over all six schools. Some 36 different tribes, including Eskimos and Aleuts are represented at these schools with many of them coming from out-of-state. Approximately 72.0 percent of the students are full-bloods and less than 9.0 percent are less than one-half.

The State of Oklahoma Department of Education has an Indian Education Division whose function is to administer many of the federal programs for the Indian students in public schools, particularly the Johnson O'Malley program, in which 253 schools participated in 1970-1971. The Division also sponsors special programs with its main directive focused on developing and implementing programs that best fit the educational needs of the Indian students.

Other state and local agencies have and are in the process of developing educational opportunities for the dropout, adult, etc. and are working to offset the dire problems of education for the Oklahoma Indian.

Chapter IV. Health and Welfare Characteristics of the Oklahoma American Indian

For the most part, the Indian Health Service of the United States Department of Health, Education, and Welfare provides comprehensive health care to the majority of Indians in Oklahoma. There are six such Indian hospitals in the state with a 331 total bed capacity in 1970 (374 in 1969); 8,259 admissions in 1970 (9,367 in 1969) and an average daily patient load of 194.9 in 1970 (214.7 in 1969).

The Oklahoma City Area office of the IHS is responsible for compiling vital health statistics for the following states: Florida, Kansas, Mississippi, North Carolina, and Oklahoma; and in reporting their findings they include all of these areas. Therefore one should keep this in mind while reading Tables IV-1 to IV-7 and IV-36 and should not construe it as representative of Oklahoma alone. However, each table has the words, "Oklahoma Indian," in the caption and this is justified in that the Oklahoma Indian population accounts for about 75 percent of the total population of the Oklahoma City IHS Report Area. The remaining tables deal specifically with the Oklahoma Indian.

According to IHS statistics the six Indian hospitals recorded 1,583 births in 1970 and 1,596 in 1969. The birth rate per 1000 was 35.5, the crude death rate per 1000 was 19.1 and the infant mortality rate per 1000 was 9.2 for the calendar year of 1967. Again In 1967 there was a recorded 55.5 percent of the deaths occurring by the age of 44, with 24.7 of them attributed to diseases of the heart. Accidents and malignant neoplasms accounted for about 12 percent respectively.

On a national scale birth rates in 1968 for Indians was 2.2 times as high as the U.S. All Races rate of 17.5. Moreover, Indian birth rates have increased almost every year from 1955 to 1964, decreased in 1965, 1966, and 1967, then rose again in 1968. For the entire country as a whole birth rates declined in every year from 1958 to 1968 and dropped a total of 30 percent in that period. There is every indication to suggest that the Indian rate rose again In 1969 and 1970 while the total U.S. birth rate still continued to decline.

On infant death rates there was a decline between 1955 and 1967 (from 62.5 to 32.2 infant deaths per 1,000 live births for the entire Indian population). In 1955, the Indian rate was 2.4 as large as the national total, and in 1967 the rate fell slightly to 1.4. The infant mortality for all Indians exceeds that of the general population as a result of high mortality in the period after the infant has left the hospital. There is little difference between Indians and all other races under 7 days of age, the rates climb 3, 4, and 5 times as large as the total general population in the postneonatal period. In 1967, postneonatal mortality was nearly 3 times the national total, and seems to be leveling off at this figure for 1970.

Progress seems to have been made in reducing mortality resulting from communicable diseases. The most outstanding success has been in reducing the number of deaths from tuberculosis. The rate had declined to 21 deaths per 1,000 by 1964, a drop of about 61 percent in 10 years.

The section concerning notifiable diseases reflect the fact that otitis media and gastroenteritis were the highest ranking over a five year period from 1965 to 1969. Again the section reflects the fact that otitis media increased 74.0 percent, gastroenteritis, 49 percent, and strep throat-scarlet feaver, 169.4 percent, pneumonia was almost as prevalent as mumps, and influenza and gonorrhea increased 137.3 percent and 59.5 percent, respectively. These figures reflect the national patterns for American Indians over that same five year period.

It should be noted that even though there is a high incidence rate among certain diseases, other factors may account for this. During that period IHS constructed additional facilities, provided more personnel for better reporting, and the Indian people seemed to accept the programs more readily than in the past. One can conclude this simply because there is a rise of all diseases particularly at the pediatric level. The disease rates, however, are still comparatively high, particularly otitis media and diabetes.

This chapter also contains the services and data reporting of the Oklahoma Department of Institutions, Social and Rehabilitative Services, which administers federal and state public assistance funds for the aged, blind, and dependent children. The figures speak for themselves.

Chapter V. Crime and Delinquency Characteristics of the Oklahoma American Indian.

The most outstanding area of arrests in the United States for American Indians lies in the area of drunkenness and alcoholic related crimes. In 1960, for example, drunkenness alone accounted for 71 percent of all Indian arrests - in 1970, it accounted for 66.8 percent of the arrests. In three major cities in Oklahoma it accounted for 45.6 percent of the arrests in 1970. Again, the figures suggest that the national urban rates of Indian arrests for alcohol-connected offenses is about 37 times as great as the white rate of alcohol-connected crimes and 15 times as great as those for Blacks. These figures are indeed shocking and alarming - further inspection of the data will bear out other factors as well.

While the previous chapter dealt with inpatient and outpatient diagnoses of alcohol-related illnesses this section reflects the number of arrests, not only of alcohol connected crimes but for other offenses as well. In addition, a table reflects the number of arrests in certain reporting counties in Oklahoma, but not by offense. It is in this area that the researchers had the most difficulty - the major urban areas of Oklahoma maintain up-to-date arrest patterns, however in the smaller towns and rural areas the reports seemingly were not available; therefore there is no way of determining the arrest patterns in those areas at this time. However, there are tables of the arrest rates by offense for national totals on American Indians and these may serve to give the reader some guidelines.

One point should be made. In many instances, an arrest tabulation is made only when the incident occurs, and while records are maintained in many instances by name, there are many Indians who repeat offenses and hence are entered into the court. Thus the total figures do not reflect that many different persons since several of them are repeat offenders. Naturally, this tends to distort the overall rates. The same is true, however, for all races and hence the same argument holds across the board for all totals.

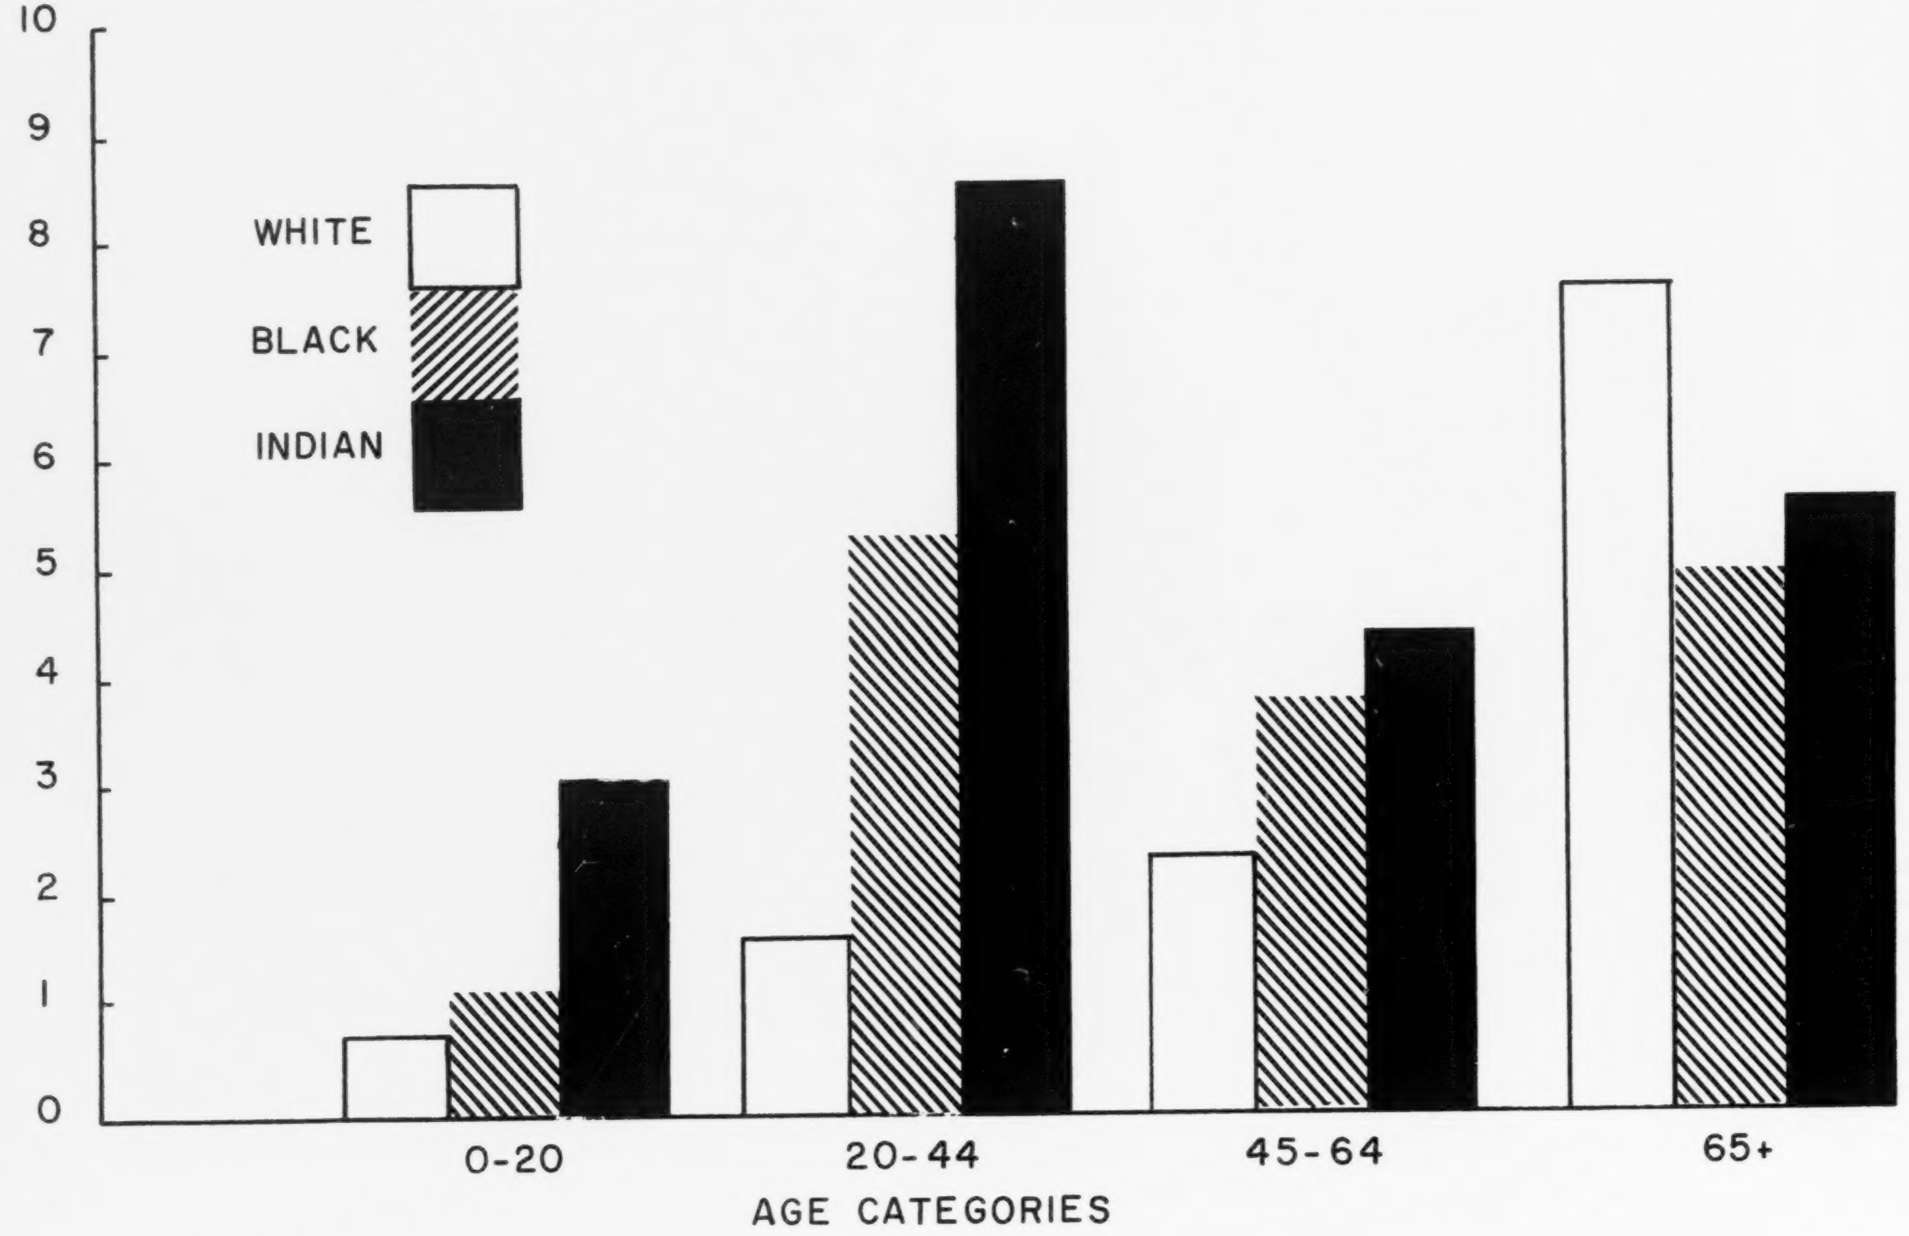
FIGURE V-1. PER CENT OF POPULATION IN INSTITUTIONS BY AGE AND RACE (UNITED STATES TOTALS - 1970.)



Chapter VI. Labor Force and Employment Patterns of the Oklahoma American Indians

Initially when the topic of employment is discussed one also becomes concerned with income, since both covary highly. In terms of family income 3 out of 5 rural Indian families had less than $3,000 income in 1959, nearly twice the proportion in the total rural population - less than 3 percent of rural Indian families had incomes of $10,000 or more. Much of the low income at that time was largely derived from sources that generally were unproductive for Indian families. Many families receive income from land leases, particularly in Oklahoma, but these rents are generally low.

The figures cited above are fairly close to those in Oklahoma. In 1959, the rural Indian in this state averaged an income of $1,212.00 - the total for all Oklahoma Indians averaged $2,145. In the northwestern sector of Oklahoma the Indian median income was $847, and only 23 of the 552 Indians in that county reported incomes of $2,500 or more during 1965. In the same year 23 of 26 Cheyenne and Arapaho families survey reported a median income of less than $2,000 per year.

As indicated, income is directly proportional to the availability of job opportunities in any given area, and this may account in part for the low figures. Unemployment is also extremely high among American Indians, in general, as well as those in Oklahoma. In 1960, the overall unemployment rate for Oklahoma Indians 14 years old and over was about 12.1 percent and sometimes, during off seasonal employment, climbed as high as 23 percent. In 1965, one Oklahoma county reported a 71.2 percent unemployment figure for the more than 2500 Indians residing therein. In 1968, the rate of unemployment and underemployment combined ran as high as 46 percent for the total Oklahoma Indian population (see Table II-7). The highest unemployment figures were reported for the Concho area (59 percent) and the Tahlequah area (45 percent) with the lowest reported 11 percent for the Shawnee area. In all instances this was at least twice that of the state total, 5.1 percent.

In terms of the overall Indian labor force in Oklahoma in 1960, 36.2 percent 14 years and older were available for employment. Breaking that down by sex, the total Indian female 14 years old and over accounted for 20.6 participation in the labor force - for Indian males, the figure was 52.4 percent. The largest employer, service industries, accounted for 25.1 percent of the employment - this holds true for most of the state with the exception of the Clinton-Shawnee area where 22.5 percent were employed in the agriculture, forestry and fisheries occupational category. Those occupational groups reporting the lowest percentage of Indians employed in 1960 were: sales workers, private household workers, and managers, officials, and proprietors (except farm operations).

As a final note, care should be exerted in interpreting the information reported in Tables 15 to 25. The information under the heading, Indian Employment, is the number of man-years, based on 2080 hours per year, rather than the actual number of individuals employed. Under the headings, Indian Wage and Salary and Indian Personal Income the figures are not total or average income but rather they are based on the total amount paid out in elements of $1,000.

The last table, VI-28, actually reflects the efforts of the Community Action Agencies in Oklahoma to provide different services, particularly in the area of short-term employment training opportunities.

Chapter VII. Housing and Acreage Holdings of Certain American Indian Tribes in Oklahoma

As of 1971, the various tribes in the State of Oklahoma held a reported 876,841 acres of land, much of which is the remainder of what was once vast land holdings before statehood. The land holdings in this chapter are those of the tribes and not of the individuals. There is a legal difference. Individually owned land may be leased, mortgaged, sold, exchanged, inherited or devised with the consent of the Secretary of the Interior or his duly authorized representative. Tribal land, on the other hand, is communal property and assumes some of the features of private corporate property. The Court of Claims in the case of Journeycake v. Cherokee Nation and the United States (28 Ct. Cl. 281; 155 U.S. 196) analyzed the essential differences between tribal ownership and other types of tenancies in an opinion quoted and affirmed by the Supreme Court which reads in part:

> "The distinctive characteristic of communal property is that every member of the community is an owner of it as such. He does not take as heir, or purchase, or grantee; if he dies his right of property does not descent; if he moves from the community it expires; if he wishes to dispose of it he has nothing which he can convey; and yet he has a right of property in the land as perfect as that of any other person; and his children after him will enjoy all that he enjoyed, not as heirs but as communal owners."

The land holdings in this section therefore are communal property and belong to the peoples of the tribes.

The land holdings are listed by tribe with a specific description of the amount of land and its location. More details can be obtained by corresponding with either the appropriate officers of the respective tribes or the Area and Agency Offices of the Bureau of Indian Affairs. Maps are available from the Area Offices in order that one can specifically locate the holdings.

The Bureau of Indian Affairs has as one of its services a land management division, whose prime responsibility is to assist the tribes in the proper use, conservation and preservation and management of the lands to ensure reasonable and just income. In addition they assist individuals in real estate appraisals, real property management, and land operations.

Table VII-I addresses itself specifically to housing units by area, however its objective is not to isolate the number of homes lived in or owned by Oklahoma's Indian people. Rather the tabulations reflect the information and home repair programs which have been serviced by the Bureau of Indian Affairs, the Department of Housing and Urban Development and the Farmers Home Administration. Collectively these organizations work to serve the best interest of the Indian people residing primarily in rural areas. For example, in 1969 the Housing Authority of the Ponca Tribe completed the first mutual-help housing project of 20 units in White Eagle. The project was constructed and aided with financial assistance from the Department of Housing and Urban Development, and the Indian Health Service. The homes were constructed on tribal lands.

One should read the housing data with great care. For example, according to a recent report, the General Accounting Office was very critical of the accuracy of BIA housing inventories. Their main contention was, "(F)or most...reservations the housing needs were determined by desk estimates based on fragmentary data."[1] The report, however, points out that the 1971 inventory reflects that a more conscientious effort coupled with the application of guidelines developed last year resulted in more accurate data.

The General Accounting Office again was extremely critical of mutual self-help housing claiming that "(the) method of construction should not be encouraged, because such projects have been plagued by lengthy construction periods." Apparently the focus of their argument is aginst the "...so-called force account mutual-help program "in which the BIA provides the construction and supervision of families' labor.

In addition to the GAO's claim that the BIA understates the problem and its program levels are low, they are also highly critical of the type of housing constructed for Indians. They present a three-fold argument: (1) design and construction deficiencies abound (settling foundations, faulty wall construction, insufficient insulation, undersized heating units, etc.); (2) poor design and workmanship are compounded by inadequate maintenance after occupancy; (3) lack of coordination within and between agencies which has resulted in projects which lack water and sanitation facilities and/or roads and streets.[2] They highly recommend that the BIA become more conscientious in their efforts at coordinating Indian housing.

Obviously there is disagreement on both sides of the ledger. But whatever position is taken it is apparent, states the GAO, that "unless the program is accelerated substantially, thousands of Indian families will continue to live under severe hardship conditions."

Notes on interpertation.-

1. Consider only families on the reservation, or on trust land adjacent to the reservation.
2. "Family Unit Starts" includes all starts, whether publicly or privately financed, that lead to standard housing for Indians, except those under the BIA housing improvement program.
3. "Housing Improvement" includes starts which lead to standard housing for Indians.
4. "Renovations Total" includes all renovations whether to standard or non-standard status whether accomplished through BIA funding or otherwise.
5. "Elibible Families" is estimated as one-fifth of the Indians living on the reservation itself, plus one-fifth of those living on trust land adjacent to the reservation. For planning purposes the BIA uses one-fifths of the population to avoid inconsistencies among reservation in the difinition of families and the wide differences in treatment of "doubled up" families.
6. "Percent-Families in Standard Housing" is the ratio of the number of units of standard housing (not listed) to to the number of eligible families.

10.421 INDIAN TRIBES AND TRIBAL CORPORATION LOANS

Federal Agency: Farmers Home Administration

Authorization: Public Law 91-229, approved April 11, 1970.

Objectives: To enable tribes and tribal corporations to mortgage lands as security for loans from the Farmers Home Administration to buy additional land within the reservation.

Types of Assistance: Guaranteed/Insured Loans.

Use and Use Restrictions: Loan funds may be used to acquire land for lease to tribal members, lease to cooperative grazing units, or for use for recreational and commercial purposes, for rounding out grazing units, for elimination of fractional heirships or other purposes approved in advance by the National FHA office. Funds may also be used for incidental costs connected with land purchase. Loan funds cannot be used for development, equipment, or operating costs.

Eligibility Requirements:

Applicant Eligibility: Limited to any Indian tribe recognized by the Secretary of Interior or tribal corporation established pursuant to the Indian Reorganization Act which does not have adequate uncommitted funds to acquire lands in the tribes' reservation or in a community in Alaska incorporated by the Secretary of the Interior pursuant to the Indian Reorganization Act. Must be unable to obtain adequate credit elsewhere and must be able to show reasonable prospects of success.

Beneficiary Eligibility: Same as applicant eligibility.

Credentials/Documentation: Credentials provided by Secretary of Interior. Feasibility documentation must be supplied by applicant.

Application and Award Process:

Preapplication Coordination. Secretary of Interior must determine that lands to be acquired lie within a tribal reservation or community.

Application Procedure: Application is made to FHA County Supervisor.

Award Procedure: Review and award made by local FHA County Supervisor.

Deadlines: None.

Range of Approval/Disapproval Time: From 30 to 90 days.

Appeals: If an application is rejected, the reasons for rejection are fully stated. The applicant may reapply at any time that the reasons for rejection are corrected.

Renewals: Not applicable.

Assistance Considerations:

Formula and Matching Requirements: The loan assistance may equal the project cost if the applicant is financially unable to contribute a part of the cost.

Length and Time Phasing of Assistance: Loans may be scheduled over a period of 40 years.

Post Assistance Requirements:

Reports: During the first year of operation, monthly progress reports are to be made to the FHA County Supervisor. Sometime after the first 4 months and before the end of the ninth month of operation, the FHA District Supervisor will review and make a report on the operation of the facilities.

Audits: Annual audits are required.

Records: Records and accounts are required to reflect the operations of the project.

Financial Information:

Account Identification: Insured loan funds, 05-60-4140-0-3-351.

Face Value of Loans: (Insured) FY 70 not in operation; FY 71 est $5,000,000; and FY 72 est $10,000,000.

Range and Average of Financial Assistance: $500,000; $4,500 to to $1,000,000.

Program Accomplishments: Not in operation in fiscal year 1970.

Regulations, Guidelines, and Literature: FHA internal instructions.

Information Contacts:

Regional or Local Office: Contacts should be made with the County Farmers Home Administration office serving the area in which the project is located. If unable to locate the county office, contact the headquarters office listed below.

Headquarters Office: Administrator, Farmers Home Administration, U. S. Department of Agriculture, Washington, D.C. 20250. Telephone: (202) 388-7968.

11.300 ECONOMIC DEVELOPMENT - GRANTS AND LOANS FOR PUBLIC WORKS AND DEVELOPMENT FACILITIES

Federal Agency: Economic Development Administration, Department of Commerce

Authorization: 42 U.S.C. 3131, 3135, 3141, 3161, 3171. Public Works and Economic Development Act of 1965; Public Law 89-136, as amended by Public Law 90-103, Public Law 91-123 and Public Law 91-304.

Objectives: To assist the construction of public facilities needed to initiate and encourage long-term economic growth in designated geographic areas where economic growth is lagging behind the rest of the Nation.

Types of Assistance: Project Grants; Direct Loans.

Uses and Use Restrictions: Grants for such public facilities as water and sewer systems, access roads to industrial parks or areas, port facilities, railroad sidings and spurs, public tourism facilities, vocational schools, flood control projects, and site improvements for industrial parks.

Qualified projects must fulfill a pressing need of the area and must: (1) tend to improve the opportunities for the successful establishment or expansion of industrial or commercial plants or facilities, or (2) otherwise assist in the creation of additional long-term employment opportunities, or (3) benefit the long-term unemployed and members of low-income families or otherwise substantially further the objectives of the Economic Opportunity Act of 1964.

In addition, proposed projects must be consistent with the currently approved overall economic development program for the area, and for the district, if any, in which it will be located.

Eligibility Requirements:

Applicant Eligibility: States, local subdivisions thereof, Indian tribes, and private or public nonprofit organizations or associations representing a redevelopment area or a designated economic development center are eligible to receive grants and loans. Corporations and associations organized for profit are not eligible.

Beneficiary Eligibility: Same as applicant eligibility.

Credentials/Documentation: Application must describe the type of proposed facility, estimated costs, extent of proposed project, direct job impact, estimated time for construction implementation, and assurance that the project will have a positive impact on the economic development process in the community.

Application Award Process:

Preapplication Coordination: Applicant should contact the regional office servicing the State in which the project is to be located. An economic development representative assigned as a coordinator of the project for EDA will provide necessary forms and assist in filling them out. Intent to file application must be coordinated in accordance with Office of Management and Budget Circular No. A-95.

Application Procedure: The Economic Development Administration representative will meet with the applicant and community leaders to establish the basis for a preapplication conference. After reviewing project and local development profile information with the regional office, he will notify the applicant immediately if EDA cannot accept the project. If project appears viable, a preapplication conference will be arranged with regional office personnel.

Award Procedure: Grant and loan applications from States, local subdivisions thereof, Indian tribes, and private or public nonprofit organizations or associations representing a redevelopment area or a designated economic development center are approved by the Assistant Secretary of Economic Development, Department of Commerce.

Contract award must be made on the lowest base bid submitted by a responsible bidder, with a responsible bidder defined as one who can furnish a performance bond and who meets the applicable State and local statutory requirements.

Notification of grant approvals are provided to the State Control Information Reception Agencies on Standard Form 240.

Deadlines: During EDA processing time, applicant is required to submit to EDA a letter detailing the progress made in the community in fostering economic development process.

Range of Approval/Disapproval Time: Normally within 90 days of acceptance of application.

Appeals: None.

Renewals: None.

Assistance Considerations:

Formula and Matching Requirements: Grants may be made for up to 50 percent of the project cost. Severely depressed areas that cannot match Federal funds may receive supplementary grants to bring the Federal contribution up to 80 percent of the project cost. Additionally, redevelopment areas located within designated economic development districts may, subject to the 80 percent maximum Federal grant limit, be eligible for a 10 percent bonus on grants for public works projects. Long-term (up to 40 years), low interest loans may be made to the applicant when financial assistance is not otherwise available from private lenders or Federal agencies on terms which would permit accomplishment of the project.

Length and Time Phasing of Assistance: EDA grant funds are disbursed for costs incurred only after all contracts for construction have been awarded. EDA loan funds are normally disbursed when the construction of the project is 75 percent or more complete.

Post Assistance Requirements:

Reports: Reports for specific project may be requested. No routine reports required.

Audits: Each recipient of financial assistance is required to keep such records as will facilitate an effective audit of the project.

Records: As necessary for above-mentioned audit.

Financial Information:

Account Identification: 06-10-2030-0-1-507.

Obligations: (Grants) FY 70 $173,899,000; FY 71 est $160,000,000; and FY 72 est $160,000,000. Face value of Loans: (Direct) FY 70 $11,263,142; FY 71 est $14,000,000; and FY 72 est $14,000,000.

Range and Average of Financial Assistance: No specific minimum or maximum project amount. $1,000 to $4,585,000; $389,000.

Program Accomplishments: Total approved projects: 2,168, Total obligations: $1.2 billion. Fiscal year 1966, 364 projects - $232,325,000; fiscal year 1967, 471 projects - $198,998,000; fiscal year 1968, 414 projects - $174,981,000; fiscal year 1969, 303 projects - $178,750,000; fiscal year 1970, 308 projects - $157,929,000; fiscal year 1971, (est), 308 projects - $160,000,000.

Regulations, Guidelines, and Literature: EDA handbook, "Building Communities with Jobs," EDA. "Grants and Loans for Public Works and Development Facilities," EDA. "Area Eligible for Financial Assistance," "Guides for Overall Economic Development Programs," "Economic Development, Directory of Approved Projects."

Information Contacts:

Regional or Local Office: Refer to the Southwestern office, 702 Colorado Street, Austin, Texas 78701.

Headquarters Office: Director, Office of Public Works, Economic Development Administration, U. S. Department of Commerce, Washington, D.C. 20230. Telephone: (202) 967-5265.

11.301 ECONOMIC DEVELOPMENT -

LOANS FOR BUSINESSES AND DEVELOPMENT COMPANIES

Federal Agency: Economic Development Administration, Department of Commerce

Authorization: 42 U.S.C. 3142, 3161, 3171. Public Works and Economic Development Act of 1965; Public Law 89-136, as amended by Public Law 90-103, Public Law 91-123 and Public Law 91-304.

Objectives: To encourage private investment by providing low interest, long term loans to help businesses expand or establish plants in redevelopment areas for projects that cannot be financed through banks or other private lending institutions.

Types of Assistance: Direct Loans: Guaranteed/Insured Loans.

Uses and Use Restrictions: Business development loans up to 65 percent of the cost of fixed assets may be used for the acquisition of fixed assets only (i.e., land, building, machinery, and equipment, including land preparation and building rehabilitation). Funds may be used for most kinds of new industrial or commercial facilities or to expand one already in existence.

In some special cases the Government can provide Federal guarantees of up to 90 percent of the unpaid balance of working capital loans obtained from private lenders. Working capital loans guaranteed by EDA may not be used for the acquisition of fixed assets. Loans can be guaranteed only for borrowers in the direct loan program.

Eligibility Requirements:

Applicant Eligibility: Any individual, private or public corporation, or Indian tribe, provided that the project to be funded is physically situated in area designated as eligible under the Act at the time the application is filed.

Neither business development loans nor working capital guarantees will be extended to applicants who: (1) have, within the previous 3 years, relocated any or all of their facilities to another city, county, or state; (2) contemplate relocating part or all of their existing facilities with a resultant loss of employment at such facilities; and (3) produce a product or service for which there is a sustained and prolonged excess of supply over demand.

No financial assistance will be rendered to projects primarily engaged in the dissemination of news (e.g., newspapers, magazines, radio and television broadcasting), or in an activity violative of local or State law.

Beneficiary Eligibility: If an application is filed by a local industrial development corporation to establish a facility to be leased to a user (or beneficiary), the same criteria apply.

Credentials/Documentation: Applicants and beneficiaries must provide financial, engineering, and feasibility documentation supporting the viability of the project. Projects in which the federal participation will exceed $1,000,000 must be supported by an independent feasibility study conducted by consultant acceptable to EDA. Tourism projects and projects involving new, untried technology will also require an independent feasibility study.

Application and Award Process:

Preapplication Coordination: Applicant should contact the regional office serving the State in which the project is to be located, and an economic development representative will be assigned to the project. With his concurrence, a preapplication conference will be scheduled with the professional staff of the regional office.

Application Procedure: At the preapplication conference, applicants will be provided with all necessary forms and detailed information relating to supporting documentation.

Award Procedure: Loan and working capital loan guarantee applications from individuals, private or public corporations, or Indian tribes, in elgible areas are approved by the Assistant Secretary for Economic Development, Department of Commerce.

Deadlines: None.

Range of Approval/Disapproval Time: 90 to 120 calendar days after receipt of application and complete supporting documentation is in good order.

Appeals: None. An applicant whose project has been denied may, however, reinstate his application if the defects leading to a denial have been remedied.

Renewals: Not applicable.

Assistance Considerations:

Formula and Matching Requirements: The Federal participation in a project may not exceed 65 percent of project fixed asset costs. A local development corporation or State agency usually participates to the extent of 5 percent. Of the remaining 30 percent, 10 percent must be in the form of applicant's equity and the balance from a conventional commercial lender. Applicants are encouraged to increase their equity participation beyond the minimum.

Length and Time Phasing of Assistance: Loans, 25 years, maximum; working capital guarantees, life of bank loan. EDA loan funds will only be disbursed after all other funds have been injected into the project.

Post Assistance Requirements:

Reports: Periodic financial and employment reports will be required. Initially, these may be quarterly, and, as the business becomes established, at longer intervals.

Audits: An annual audit by a certified public accountant will be required not more than 90 days after the close of the applicant's fiscal year.

Records: Not applicable except as required above.

Financial Information:

Account Identification: 06-10-2031-0-1-507.

Face Value of Loans: (Direct) FY 70 $49,360,000; FY 71 est $46,000,000; and FY 72 est $45,500,000. (Guarantees) FY 70 $44,424,000; FY 71 est $41,000,000; and FY 72 est $40,950,000.

Range and Average of Financial Assistance: No specific minimum or maximum project amount. $126,000 to $6,095,000; $1,153,000.

Program Accomplishments: In fiscal year 1970, 43 projects were approved at a value of $49,993,000. Estimate for 1971 is 40 projects valued at $50,000,000.

11.303 ECONOMIC DEVELOPMENT - TECHNICAL ASSISTANCE

Federal Agency: Economic Development Administration, Department of Commerce

Authorization: 42 U.S.C. 3151(a), 3152, Public Works and Economic Development Act of 1965; Public Law 89-136, as amended by Public Law 90-103, Public Law 91-123 and Public Law 91-304.

Objectives: To solve problems of economic growth in EDA-designated geographic areas and other areas of substantial need through feasibility studies, management and operational assistance, and other studies.

Types of Assistance: Project Grants (and contracts); Dissemination of Technical Information.

Uses and Use Restrictions: Technical assistance is used to provide information, data, and know-how in evaluating and/or shaping specific projects and programs related to economic development. It is used in economically depressed areas of the country and in similar sections of urban areas. Technical assistance may be in the form of services provided by contract, or direct grants.

Eligibility Requirements:

Applicant Eligibility: While there are no specific applicant eligibility requirements most technical assistance applicants are private nonprofit groups or municipal or county governments or entities thereof, located in economically depressed areas of the country. Infrequently, technical assistance is given to small private business firms; however, this technical assistance must be repaid to the Government.

Beneficiary Eligibility: **Same as applicant eligibility.**

Credentials/Documentation: No rigid requirement. However, corporation charters are usually requested.

Application and Award Process:

Preapplication Coordination: Applicant should coordinate with EDA regional office serving his State. Intent to file application must be coordinated in accordance with Office of Management and Budget Circular No. A-95.

Application Procedure: Submit application to EDA regional office on form ED-302; if grant, also use supplemental form ED-300.

Award Procedure: Grants and contracts to provide information, data, and know-how in evaluating and/or shaping projects and programs related to economic development are approved by the Assistant Secretary for Economic Development, Department of Commerce, Notification of grant approvals are provided to the State Central Information Reception Agencies on Standard Form 240.

Range of Approval/Disapproval Time: 1 month to 3 months, but may be longer, depending upon condition of application.

Appeals: None.

Renewals: Technical assistance may be renewed. However, the limit is normally 3 years.

Assistance Considerations:

Formula and Matching Requirements: Technical assistance must be related to near-term job and income creation. For grants, contribution by grantee of 25 percent or more of total cost in cash or in kind is required.

Length and Time Phasing of Assistance: Varies, but usually period of 1 year or less. No time phasing.

Post Assistance Requirements:

Reports: Quarterly reports, sometimes more frequently, are required.

Audits: Audits are performed on a sampling basis; unusually large or complicated project grants are audited routinely.

Records: Financial records are required to be kept for a period of 3 years following completion of grant.

Financial Information:

Account Identification: 06-10-2032-0-1-507.

Obligations: (Grants and contracts) FY 70 $12,398,000 ($9,919,000 grants and $2,479,000 contracts); FY 71 est $12,410,000 ($9,890,000 grants and $2,520,000 contracts); and FY 72 est $12,760,000 ($11,760,000 grants and $1,000,000 contracts).

Range and Average of Financial Assistance: $500 to $495,000. Technical assistance services, such as feasibility studies, average $25,000. Technical assistance project grants average around $80,000 to $100,000 per year.

Program Accomplishments: In fiscal year 1970, 292 projects (grants and contracts) were initiated.

14.147 PUBLIC HOUSING - HOME-OWNERSHIP FOR LOW-INCOME FAMILIES

(Turnkey III, Turnkey IV, Mutual-Help for Indians)

Federal Agency: Housing Production and Mortgage Credit/FHA, Department of Housing and Urban Development

Authorization: United States Housing Act of 1937, as amended, Public Law 75-412; 42 U.S.C. 1401-1435.

Objectives: To provide, through local public housing agencies, low-income families with the opportunity of owning their own homes.

Types of Assistance: Direct Loans; Formula Grants.

Uses and Use Restrictions: To assist local public agencies in providing housing purchase opportunities for low-income families by crediting the amount budgeted for routine maintenance, which is performed by the tenants, to family equity accounts. When family income increases to the point where it can obtain permanent financing for the unit, or when the equity account equals the unamortized debt and closing costs, ownership passes to the family. Originally the units are owned (Turnkey III) or leased (Turnkey IV) by the local public agency. The unit must be legally discrete and can be part of a planned unit development, condominium, or cooperative. During the period of tenancy, the family makes payments between 20 and 25 percent of their income. The Turnkey III homes are amortized over a period of 30 years and the Turnkey IV assistance is for 20 years. The mutual-help program for the Indians allows families to contribute their labor in the construction of the housing. They may also contribute the building site, and, where feasible, indigenous building materials.

Eligibility Requirements:

Applicant Eligibility: Local housing authorities established by a local government in accordance with state law, authorized public agencies, or Indian tribal organizations are eligible. The proposed program must be approved by the local governing body.

Beneficiary Eligibility: Low-income families interested and demonstrating potential for homeownership.

Credentials/Documentation: The applicant must support the application by furnishing population and housing data showing the need for the number of units requested. If it is the first application, the applicant must also furnish documentation that it is a legal entity.

Application and Award Process:

Preapplication Coordination: Execution of a Cooperation Agreement between the local government and the local public agency.

Application Procedure: Local public agencies should contact the appropriate HUD Area or Regional Office; prospective homeowners should apply to the local public agency.

Award Procedure: The Area Director (or Regional Administrator where Area Offices are not yet established) makes final decision to authorize approval of applications.

Deadlines: None.

Range of Approval/Disapproval Time: Approximately 30 days for clearance of applications.

Appeals: Not applicable.

Renewals: Not applicable.

Assistance Considerations:

Formula and Matching Requirements: Annual contributions to local public agencies for use as subsidies to homebuyers and to cover debt service. There are no matching requirements.

Length and Time Phasing of Assistance: Length of annual contributions commitment is approximately 25 years.

Post Assistance Requirements:

Reports: Annual Operating Budget; periodic statistical occupancy reports.

Audits: Periodic fiscal, occupancy and maintenance and general management audits.

Records: Those necessary to indicate compliance with Annual Contributions Contract.

Financial Information:

Account Identification: 25-02-4089-0-3-555, (contract authorization fund); 25-02-0139-0-1-555, (payments).

Obligations: Data on this activity cannot be split out from others funded by the same source; included under 14.146, Public Housing - Acquisition (With or Without Rehabilitation).

Range and Average of Financial Assistance: Data not available.

Program Accomplishments: Since 1968, 7,149 units have been placed in management under all homeownership programs. Currently 35,822 units are under development.

Regulations, Guidelines, and Literature: Material on the homeownership programs for low-income families is available in HUD Area and Regional Offices.

Information Contacts:

Regional or Local Office: Oklahoma City Area Office, 301 North Hudson Street, Oklahoma City, Oklahoma 73102. Telephone: (405) 231-4181.

14.148 PUBLIC HOUSING - LEASED

Federal Agency: Housing Production and Mortgage Credit/FHA, Department of Housing and Urban Development.

Authorization: U. S. Housing Act of 1937, Section 23, as added by the Housing and Urban Development Act of 1965, Section 103(a), Public Law 89-117; 79 Stat. 451, 455; 42 U.S.C. 1410(c); U. S. Housing Act of 1937, Section 10(c) as added by the Housing and Urban Development Act of 1965, Section 502; Public Law 89-117; 79 Stat. 451, 487; 42 U.S.C. 1421B.

Objectives: To assist local public agencies to provide decent, safe, and sanitary low-rent housing and related facilities for families of low income through the leasing of existing or newly constructed housing.

Types of Assistance: Formula Grants.

Uses and Use Restrictions: Provides annual contributions which permit local public agencies to provide decent, safe and sanitary housing for low-income families at rents they can afford to pay. The annual contributions are used to make up the difference between the rent paid to the owner by the local public agency and the rent the low-income tenant can afford to pay based upon the tenant's income but not in excess of 25 percent of such income. The annual contributions cannot exceed the amount that would be paid for a newly constructed project by the local public agency designed to accommodate a comparable number, sizes and kinds of families. Additional contributions are available for certain operating and maintenance expenses attributable to a dwelling unit.

Eligibility Requirements:

Applicant Eligibility: Local housing authorities established by a local government in accordance with State law, authorized public agencies, or Indian tribal organizations are eligible. The proposed program must be approved by the local governing body.

Beneficiary Eligibility: Families of low income. A single person who is elderly, displaced under certain conditions, or the remaining member of a tenant family is also eligible.

Credentials/Documentation: The applicant must support the application by furnished population and housing data showing the need for the number of units requested. If it is the first application, the applicant must also furnish documentation that it is a legal entity.

Application and Award Process:

Preapplication Coordination: Execution of Cooperation Agreement between local government and local public agency under Section 10(c).

Application Procedure: Submission of Application for Low-Rent Housing Program (Forms HUD 52470, 52470A, 52470B and sometimes 52470C) to the Area Office Director (or Regional Administrator where Area Offices are not yet established). HUD Handbook RHA 7430.1 covers application procedures.

Award Procedure: Area Office Director (or Regional Administrator where Area Offices are not yet established) makes final decision to authorize approval of individual applications.

Deadlines: None.

Range of Approval/Disapproval Time: Approximately 30 days for clearance of applications.

Appeals: Not applicable.

Renewals: Not applicable.

Assistance Considerations:

Formula and Matching Requirements: Annual contributions make up the difference between the rent paid to the owner by the local public agency and the rent paid by the low-income family, but not in excess of the amounts that would be paid for newly constructed public housing units by such local public agency designed to accommodate comparable numbers, sizes, and kinds of families. There are no matching requirements.

Length and Time Phasing of Assistance: Generally quarterly for the length of the lease commitment which may be one to ten years renewable to a maximum of fifteen years for existing housing and a maximum of twenty years for newly constructed housing.

Post Assistance Requirements:

Reports: Annual Operating Budget; periodic occupancy and financial reports.

Audits: Periodic fiscal, occupancy, general management and maintenance audits.

Records: Those necessary to indicate compliance with Annual Contributions Contract.

Financial Information:

Account Information: 25-02-4098-0-3-555 (contract authorization - fund); 25-02-0139-0-1-555 (payments).

Obligations: Obligations included in program 14.146.

Range and Average of Financial Assistance: Amount necessary to lease units and cover related operating expenses not to exceed amounts that would be paid for newly constructed units designed to accommodate comparable numbers, sizes, and kinds of families.

Program Accomplishments: During fiscal year 1970, annual Contribution Contracts were executed for 19,057 dwelling units.

15.115 INDIAN - HOUSING DEVELOPMENT

Federal Agency: Bureau of Indian Affairs, Department of the Interior.

Authorization: The Snyder Act, November 2, 1921; 42 Stat. 208; Public Law 67-85; 25 U.S.C. 13.

Objectives: To eliminate substandard Indian housing in the 1970's in accordance with the joint plans of the Departments of Health, Education, and Welfare, Housing and Urban Development, and Interior, in conjunction with the Indian - Housing Improvement Program (15.116).

Types of Assistance: Training; Advisory Services and Counseling; Dissemination of Technical Information.

Uses and Use Restrictions: Assistance is provided to Indian tribes in establishing housing authorities to obtain benefits of HUD housing programs; in carrying out construction of the projects and in managing them. Assistance is restricted to Indian tribes that are able to establish housing authorities and carry out programs under the U. S. Housing Act of 1949, as amended, and the rules and regulations of the Department of Housing and Urban Development.

Eligibility Requirements:

Applicant Eligibility: Indians and other persons who meet the income criteria and other rules and regulations of the legally established local Indian housing authorities.

Beneficiary Eligibility: Same as applicant eligibility.

Credentials/Documentation: Tribal resolution establishing housing authority under U. S. Housing Act of 1937, as amended, the U. S. Housing Act of 1949, as amended, and rules and regulations of the Department of HUD. For those programs that do not require a housing authority for assistance, proper documentation in the form of certification for land, income, and other eligibility criteria are necessary.

Application and Award Process:

Preapplication Coordination: None.

Application Procedure: Verbal or written request from tribe, local Indian housing authority or other interested groups of Indians, to Agency Superintendent.

Award Procedure: Not applicable.

Deadlines: None.

15.116 INDIAN - HOUSING IMPROVEMENT

Federal Agency: Bureau of Indian Affairs, Department of the Interior.

Authorization: The Snyder Act, November 2, 1921; 42 Stat. 208; Public Law 67-85; 25 U.S.C. 13.

Objectives: Eliminate substandard Indian housing in the seventies in conjunction with other Federal housing programs.

Types of Assistance: Project Grants.

Uses and Use Restrictions: The program is mainly devoted to housing improvement. The Bureau does, however, build an entire house in special situations where no other program will meet the need, i.e., extremely isolated areas or reservations where only a very small number of homes needed.

Eligibility Requirements:

Applicant Eligibility: Indians in need of financial assistance to help repair or renovate existing homes or who need a new house and cannot be helped by any other Federal program. Indians who have the financial ability to provide their own housing are not eligible to participate.

Beneficiary Eligibility: Same as applicant eligibility.

Credentials/Documentation: Indians must furnish information as to their financial inability to obtain assistance for repairs or new housing.

Application and Award Process:

Preapplication Coordination: None.

Application Procedure: Verbal or written request from Indians to Agency Superintendent.

Award Procedure: Grants are approved by Agency Superintendent.

Deadlines: None.

Range of Approval/Disapproval Time: 30 to 90 days.

Appeals: 1. Agency Office, 2. Area Office, 3. Headquarters.

Renewals: Not applicable.

Assistance Considerations:

Formula and Matching Requirements: Not required, however, HIP money is used in conjunction with other Federal or privately financed programs that are appropriate to repair or build housing. This also includes the recipients self-help efforts where possible and practical.

Length and Time Phasing of Assistance: Not applicable.

Post Assistance Requirements:

Reports: None.

Audits: Not applicable.

Records: When the Bureau contracts with an Indian tribe for services, the tribe is required to maintain open books which the Bureau can inspect at any time.

Financial Information:

Authorization: Johnson-O'Malley Act of June 4, 1936; Public Law 74-638; 25 U.S.C. 452.

Objectives: To assure adequate education opportunity for Indian children.

Types of Assistance: Project Grants; Use of Property, Facilities, and Equipment.

Uses and Use Restrictions: Funds may be used for costs of operating minimum school program; they may also be used for the costs of school lunches, books, supplies, and other parental-type cost items for those Indian children without financial resources to cover these needs. The funds provided under this program may not be used for capital exepnditures.

Eligibility Requirements:

Applicant Eligibility: Public school districts which have eligible Indian children attending school: Maintain standard of educational services at least equivalent to those required by the State; levy school taxes at a rate not less than the average for all similar type school districts in the state, or otherwise show that local tax effort is all that can be reasonably required because of State constitutional tax limitations or other factors; and show that tax-exempt Indian-owned land within the district is creating a financial burden that justifies assistance.

Beneficiary Eligibility: Children of one-fourth or more degree of Indian blood whose parents reside in or near Indian reservations under the jurisdiction of the Bureau of Indian Affairs.

Credentials/Documentation: None.

Application and Award Process:

Preapplication Coordination: None.

Application Procedure: Request for assistance is submitted by State, together with a State plan, supported by budget estimates demonstrating need for BIA school assistance.

Award Procedure: Contract is negotiated by State representatives and authorized representatives of the Commissioner and assistance paid to State in accordance with contract terms. State in turn extends assistance to local school districts.

Deadlines: None.

Range of Approval/Disapproval: 1 to 4 weeks.

Appeals: Not applicable.

Renewals: Contracts may be renewed annually.

Assistance Considerations:

Formula and Matching Requirements: Amount of aid is based on formula specified in State plan which is geared to State system of school finance. Factors considered include amount of tax-exempt Indian owned lands within school district boundaries, number of Indian children enrolled, and local tax efforts. District must exhaust all resources, local, State, and other Federal education funds, before Johnson'O'Malley assistance is made available.

Length and Time Phasing of Assistance: As long as needed. Provided on an annual basis, subject to availability of appropriations.

Post Assistance Requirements:

Reports: Annual reports required following the close of the local school year, to be submitted on or before October 15.

Audits: Schools in which eligible Indian children are enrolled shall be open to visits of observation and consultation by accredited Federal Government representatives.

Records: Each State shall make available to accredited employees of the Bureau of Indian Affairs such records and reports as may be necessary to enable them to conduct inspections of the school program related to the contract.
